

State of Arizona

Single Audit Report

Year Ended June 30, 2018

A Report to the Arizona Legislature

Lindsey A. Perry
Auditor General

The Arizona Office of the Auditor General's mission is to provide independent and impartial information and specific recommendations to improve the operations of State and local government entities. To this end, the Office provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits and special reviews of school districts, State agencies, and the programs they administer.

MELANIE M. CHESNEY
DEPUTY AUDITOR GENERAL

ARIZONA AUDITOR GENERAL
LINDSEY A. PERRY

JOSEPH D. MOORE
DEPUTY AUDITOR GENERAL

Independent auditors' report on internal control over financial reporting and on compliance and other matters based on an audit of basic financial statements performed in accordance with *Government Auditing Standards*

The Honorable Doug Ducey, Governor
State of Arizona

The Honorable Karen Fann, President
Arizona State Senate

The Honorable Russell "Rusty" Bowers, Speaker
Arizona House of Representatives

The Honorable Scott Bales, Chief Justice
Arizona Supreme Court

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the State's basic financial statements, and have issued our report thereon dated March 8, 2019. Our report includes a reference to other auditors who audited the financial statements of the Arizona Department of Transportation, the Arizona Health Care Cost Containment System, the Arizona State Lottery, the Arizona State Retirement System, the Public Safety Personnel Retirement System, the Corrections Officer Retirement Plan, the Elected Officials' Retirement Plan, the Early Childhood Development and Health Board, the Arizona Correctional Industries, and certain aggregate discretely presented component units, as described in our report on the State's financial statements. Of the aggregate discretely presented component units, the other auditors did not audit in accordance with *Government Auditing Standards* the financial statements of the Arizona Power Authority and the Universities-Affiliated Component Units, except for those of the ASU Preparatory Academy, Inc., and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with those discretely presented component units. For those State agencies and discretely presented component units the other auditors audited in accordance with *Government Auditing Standards*, this report includes our consideration of the results of the other auditors' testing of internal control over financial reporting and compliance and other matters that those other auditors reported on separately. However, this report, insofar as it relates to the other auditors' results, is based solely on the other auditors' reports.

Internal control over financial reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's basic financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2018-02 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2018-01 and 2018-03 through 2018-10 to be significant deficiencies.

Compliance and other matters

As part of obtaining reasonable assurance about whether the State's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and those of the other auditors disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

State of Arizona's response to findings

The State's responses to the findings identified in our audit are presented in their respective corrective action plans at the end of this report. The State's responses were not subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

Purpose of this report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Lindsey Perry, CPA, CFE
Auditor General

March 8, 2019

MELANIE M. CHESNEY
DEPUTY AUDITOR GENERAL

ARIZONA AUDITOR GENERAL
LINDSEY A. PERRY

JOSEPH D. MOORE
DEPUTY AUDITOR GENERAL

**Independent auditors' report on compliance for each major federal program;
report on internal control over compliance; and report on schedule of
expenditures of federal awards required by the Uniform Guidance**

The Honorable Doug Ducey, Governor
State of Arizona

The Honorable Karen Fann, President
Arizona State Senate

The Honorable Russell "Rusty" Bowers, Speaker
Arizona House of Representatives

The Honorable Scott Bales, Chief Justice
Arizona Supreme Court

Report on compliance for each major federal program

We have audited the State of Arizona's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018, except for the Medical Assistance Program CFDA 93.778 (part of Medicaid Cluster) administered by the Arizona Health Care Cost Containment System. This major federal program was audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to this major federal program's compliance with the types of compliance requirements described in the *OMB Compliance Supplement*, is based solely on the report of the other auditors. The State's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The State's basic financial statements include the operations of the ASU Preparatory Academy, Inc., which was reported as a discretely presented component unit. This component unit expended \$1,796,603 in federal awards that are not included in the State's schedule of expenditures of federal awards for the year ended June 30, 2018. Our audit, described below, did not include the operations of the ASU Preparatory Academy, Inc., because the entity engaged another auditor to perform an audit in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Management's responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' responsibility

Our responsibility is to express an opinion on compliance for each of the State's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Uniform Guidance. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit and the report of the other auditor provide a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the State's compliance.

Basis for qualified opinion on Career and Technical Education—Basic Grants to States, Rehabilitation Services Vocational Rehabilitation Grants to States, TANF Cluster, Foster Care Title IV-E, and Adoption Assistance

As described in the accompanying schedule of findings and questioned costs, the State did not comply with requirements regarding the major federal programs as described in the items for the types of compliance requirements listed below. Compliance with such requirements is necessary, in our opinion, for the State to comply with the requirements applicable to that program.

<u>Program (or cluster) name</u>	<u>CFDA Number</u>	<u>Compliance requirement</u>	<u>Finding number</u>
Career and Technical Education— Basic Grants to States	84.048	Subrecipient monitoring	2018-115
Rehabilitation Services Vocational Rehabilitation Grants to States	84.126	Cash management	2018-102
TANF Cluster	93.558	Cash management	2018-102
Foster Care Title IV-E	93.658	Cash management Eligibility	2018-108 2018-107
Adoption Assistance	93.659	Cash management	2018-108

Qualified opinion on Career and Technical Education—Basic Grants to States, Rehabilitation Services Vocational Rehabilitation Grants to States, TANF Cluster, Foster Care Title IV-E, and Adoption Assistance

In our opinion, except for the noncompliance described in the basis for qualified opinion paragraph, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on Career and Technical Education—Basic Grants to States, Rehabilitation Services Vocational Rehabilitation Grants to States, TANF Cluster, Foster Care Title IV-E, and Adoption Assistance for the year ended June 30, 2018.

Unmodified opinion on each of the other major federal programs

In our opinion, based on our audit and the report of the other auditors, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2018.

Other matters

The results of our auditing procedures disclosed other instances of noncompliance that are required to be reported in accordance with the Uniform Guidance and that are described in the accompanying schedule of findings and questioned costs as items 2018-101, 2018-103 through 2018-106, 2018-109 through 2018-114, and 2018-116. Our opinion on each major federal program is not modified with respect to these matters.

Report on internal control over compliance

The State's management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2018-102, 2018-103, 2018-107 through 2018-110, 2018-112, 2018-115, and 2018-116 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2018-104, 2018-105, 2018-106, 2018-111, 2018-113, and 2018-114 to be significant deficiencies.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

State of Arizona's response to findings

The State's responses to the findings identified in our audit are presented in its corrective action plan at the end of this report. The State's responses were not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on them.

Report on schedule of expenditures of federal awards required by the Uniform Guidance

We have audited the financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the State's basic financial statements. We issued our report thereon dated March 8, 2019, that contained unmodified opinions on those financial statements. Our report also included a reference to our reliance on other auditors. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the State's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of the State's management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards by us and the other auditors. In our opinion, based on our audit, the procedures performed as described previously, and the reports of the other auditors, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Lindsey Perry, CPA, CFE
Auditor General

March 28, 2019

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Summary of auditors' results

Financial statements

Type of auditors' report issued on whether the financial statements audited were prepared in accordance with generally accepted accounting principles Unmodified

Internal control over financial reporting

Material weaknesses identified? Yes

Significant deficiencies identified? Yes

Noncompliance material to the financial statements noted? No

Federal awards

Internal control over major programs

Material weaknesses identified? Yes

Significant deficiencies identified? Yes

Type of auditors' report issued on compliance for major programs

Unmodified on all programs except for Career and Technical Education—Basic Grants to States (84.048), Rehabilitation Services Vocational Rehabilitation Grants to States (84.126), TANF Cluster (93.558), Foster Care Title IV-E (93.658), and Adoption Assistance (93.659), which were qualified.

Any audit findings disclosed that are required to be reported in accordance with 2 CFR §200.516(a)? Yes

Identification of major programs

CFDA number	Name of federal program or cluster
10.558	Child and Adult Care Food Program
12.401	National Guard Military Operations and Maintenance (O&M) Projects
14.195	Section 8 Project—Based Cluster
16.575	Crime Victim Assistance

84.027/84.173	Special Education Cluster (IDEA)
84.048	Career and Technical Education—Basic Grants to States
84.126	Rehabilitation Services Vocational Rehabilitation Grants to States
93.044/93.045/93.053	Aging Cluster
93.558	TANF Cluster
93.775/93.777/93.778	Medicaid Cluster
93.563	Child Support Enforcement
93.658	Foster Care Title IV-E
93.659	Adoption Assistance
93.917	HIV Care Formula Grants
96.001	Disability Insurance/SSI Cluster
R&D	Research and Development Cluster

Dollar threshold used to distinguish between Type A and Type B programs **\$30,000,000**

Auditee qualified as low-risk auditee? **No**

Other matters

Auditee’s summary schedule of prior audit findings required to be reported in accordance with 2 CFR §200.511(b)? **Yes**

Financial statement findings

2018-01

Managing risk

Condition and context—We reviewed the risk-assessment process at 4 State agencies, including the Departments of Administration (ADOA), Economic Security (DES), Child Safety (DCS), and Revenue (DOR), and found that the agencies' risk-management processes did not include an overall risk-assessment process that included identifying, analyzing, and responding to agency-wide information technology (IT) risks, such as potential harm from unauthorized access, use, disclosure, disruption, modification, or destruction of IT data and systems. Also, the agencies' processes did not include identifying, classifying, and inventorying sensitive information that might need stronger access and security controls and evaluating and determining the business functions and IT systems that would need to be restored quickly if the agencies were impacted by disasters or other system interruptions.

Criteria—Effectively managing risk at State agencies includes each agency establishing an agency-wide risk-assessment process involving members of its administration and IT management to determine the risks the agency faces as it seeks to achieve its objectives to not only report accurate financial information and protect its IT systems and data but to also carry out its overall mission and service objectives. The process should provide the basis for developing appropriate responses based on identified risk tolerances and specific potential risks to which the agency might be subjected. To help ensure the agency's objectives can be met, an annual risk assessment should include considering IT risks. For each identified risk, the agency should analyze the identified risk and develop a plan to respond within the context of the agency's defined objectives and risk tolerances. The risk-management process should also address the risk of unauthorized access, use, modification, or loss of sensitive information and the risk of losing the continuity of business operations in the event of a disaster or system interruption.

Effect—The State agencies' administration and IT management may put the agencies' operations and IT systems and data at unintended and unnecessary risk.

Cause—Because the State's risk-assessment process is decentralized and managed at each agency, the agencies are in various stages of developing or implementing policies and procedures for assessing and managing risk and have not fully implemented agency-wide risk-assessment processes that address IT security. Additionally, DCS relies partly on DES for assessing and managing risk over its systems and data because they are housed on DES' network.

Recommendations—State agencies should identify, analyze, and reduce risks to help prevent undesirable incidents and outcomes that could impact business functions, IT systems, and data. They also should plan for where resources should be allocated and where critical controls should be implemented. To help ensure they have effective agency-wide policies and procedures to achieve these objectives, State agencies should follow guidance established by the Arizona Strategic Enterprise Technology Office, which is based on the IT security framework of the National Institute of Standards and Technology. Responsible administrative officials and management over finance, IT, and other agency functions should be asked for input in the risk-management process. State agencies should conduct the following as part of their risk-management process:

- Perform an annual agency-wide IT risk-assessment process that includes evaluating risks, such as risks of inappropriate access that would affect financial data, system changes that could adversely impact or disrupt system operations, and inadequate or outdated system security. (ADOA, DES, DCS, DOR)

- Evaluate and manage the risks of holding sensitive information by identifying, classifying, and inventorying the information the agency holds to assess where stronger access and security controls may be needed to protect data in accordance with State statutes and federal regulations. (ADOA, DES, DCS, DOR)
- Evaluate and determine the business functions and IT systems that would need to be restored quickly given the potential impact disasters or other IT system interruptions could have on critical organizational functions, such as public assistance and safety, operations, and payroll and accounting, and determine how to prioritize and plan for recovery. (ADOA, DES, DOR)

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-01.

2018-02

Information technology (IT) controls—access, configuration management, security, and contingency planning

Condition and context—We reviewed the access, configuration management, information technology security, and contingency-planning controls at 4 State agencies, including the Departments of Administration (ADOA), Economic Security (DES), Child Safety (DCS), and Revenue (DOR), and found that the agencies' control procedures were not sufficiently designed, documented, and implemented to respond to risks associated with their IT systems and data. The agencies lacked adequate procedures over the following:

- **Restricting access to IT systems and data**—Procedures did not consistently help prevent or detect unauthorized or inappropriate access. (ADOA, DES, DCS, DOR)
- **Configuring systems securely and managing system changes**—Procedures did not ensure IT systems were securely configured and all changes were adequately managed. (ADOA, DES, DOR)
- **Securing systems and data**—IT security policies and procedures lacked controls to prevent unauthorized or inappropriate access or use, manipulation, damage, or loss. (ADOA, DES, DOR)
- **Developing and documenting or updating a contingency plan**—Plan either was not in place for restoring operations in the event of a disaster or other system interruption or it lacked key elements necessary to succeed in restoring operations. (ADOA, DES, DOR)

Criteria—State agencies should have effective internal controls to protect their IT systems and help ensure the integrity and accuracy of the data they maintain.

- **Logical and physical access controls**—Help to ensure systems and data are accessed by users who have a need, systems and data access granted is appropriate, key systems and data access is monitored and reviewed, and physical access to system infrastructure is protected. (ADOA, DES, DCS, DOR)
- **Well-defined documented configuration management process**—Ensures IT systems are configured securely and that changes to the systems are identified, documented, evaluated for security implications, tested, and approved prior to implementation. This helps limit the possibility of an adverse impact on the system security or operations. Separation of responsibilities is an important control for system changes; the same person who has authority to make system changes should not put the change into production. If those responsibilities cannot be separated, a post-implementation review

should be performed to ensure the change was implemented as designed and approved. (ADOA, DES, DOR)

- **IT security internal control policies and procedures**—Help prevent, detect, and respond to instances of unauthorized or inappropriate access or use, manipulation, damage, or loss to IT systems and data. (ADOA, DES, DOR)
- **Comprehensive documented and tested contingency plan**—Provides the preparation necessary to place the plan in operation and helps to ensure business operations continue and systems and data can be recovered in the event of a disaster, system or equipment failure, or other interruption. (ADOA, DES, DOR)

Effect—There is an increased risk that State agencies may not adequately protect their IT systems and data, which could result in unauthorized or inappropriate access and the loss of confidentiality and integrity of systems and data. It also increases the agencies' risk of not being able to effectively continue daily operations and completely and accurately recover vital IT systems and data in the event of a disaster or system interruption.

Cause—Because the State is decentralized and IT systems and data are managed at each agency, the State agencies are in various stages of developing and implementing policies and procedures for access, configuration management, security, and contingency planning and, because of a lack of resources, have not fully implemented them. Additionally, DCS relies partly on DES for access, configuration management, and security and relies wholly on DES for contingency planning because its systems and data are housed on DES' network.

Recommendations—To help ensure that State agencies have effective policies and procedures over their IT systems and data, agencies should follow guidance established by the Arizona Strategic Enterprise Technology Office, which is based on the IT security framework of the National Institute of Standards and Technology. To help achieve these control objectives, agencies should develop, document, and implement control procedures in each IT control area described below:

Access

- Assign and periodically review employee user access ensuring appropriateness and compatibility with job responsibilities. (ADOA, DES, DCS, DOR)
- Remove terminated employees' access to IT systems and data. (ADOA, DCS, DOR)
- Review all other account access to ensure it remains appropriate and necessary. (ADOA, DES, DCS, DOR)
- Evaluate the use and appropriateness of accounts shared by 2 or more users and manage the credentials for such accounts. (ADOA, DES, DOR)
- Enhance authentication requirements for IT systems. (ADOA)
- Manage employee-owned and entity-owned electronic devices connecting to the agency's systems and data (DOR)
- Manage remote access to the agency's systems and data. (ADOA, DCS, DOR)
- Utilize data-sharing agreements when sharing the agency's data, limit the access as appropriate, and enforce data-sharing security restrictions. (DOR)
- Review data center physical access periodically to determine whether individuals still need it. (ADOA, DOR)

Configuration and change management

- Establish and follow a documented change management process. (DOR)
- Review proposed changes for appropriateness, justification, and security impact. (DOR)

- Document changes, testing procedures and results, change approvals, and post-change review. (DOR)
- Develop and document a plan to roll back changes in the event of a negative impact to IT systems. (DOR)
- Test changes prior to implementation. (DOR)
- Separate responsibilities for the change management process or, if impractical, perform a post-implementation review to ensure the change was implemented as approved. (DOR)
- Configure IT resources appropriately and securely and maintain configuration settings. (ADOA, DES, DOR)
- Manage software installed on employee computer workstations. (DES, DOR)

Security

- Perform proactive key user and system activity logging and log monitoring, particularly for users with administrative access privileges. (ADOA, DES, DOR)
- Prepare and implement a security-incident-response plan clearly stating how to report and handle incidents. (DES, DOR)
- Provide all employees ongoing training on IT security risks and their responsibilities to ensure systems and data are protected. (DOR)
- Perform IT vulnerability scans and remediate vulnerabilities in accordance with a remediation plan. (ADOA, DES, DOR)
- Identify, evaluate, and apply patches in a timely manner. (ADOA, DES, DOR)

Contingency planning

- Develop and implement a contingency plan or update the contingency plan if a plan is in place, and ensure it includes all required elements to restore critical operations, including being prepared to enable moving critical operations to a separate alternative site if necessary. (ADOA, DES, DOR)
- Test the contingency plan. (ADOA, DES, DOR)
- Train staff responsible for implementing the contingency plan. (ADOA, DES, DOR)
- Back up and securely maintain backups of systems and data. (ADOA, DES, DOR)

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year findings 2017-02 (access), 2017-03 (configuration and change management), 2017-04 (IT security), and 2017-05 (contingency planning).

2018-03

Department of Administration—Data Center's contracts with State agencies missing key elements

Condition and context—The Department of Administration's Data Center's IT service contracts with State agencies did not adequately specify the extent of backup and recovery services that would be provided in the event of a disaster or other system interruptions. Also, the contracts lacked responsibilities and priorities for restoring operations, including what systems and data, if any, an agency would need to provide to the Data Center to successfully restore its operations.

Criteria—IT service contracts between the Data Center and other State agencies should be complete and up to date and include the agencies' responsibilities and priorities for recovery efforts to help ensure that

expectations on the extent of services provided are clear and operations can be fully restored in the event of a disaster, system or equipment failure, or other interruption.

Effect—There is an increased risk that agencies may not understand the extent of backup and recovery services the Data Center will provide, and the Data Center may not be able to fully restore agencies' systems and data in the event of a disaster, system or equipment failure, or other interruption.

Cause—The Data Center did not have sufficient policies and procedures in place to help ensure that IT service contracts with State agencies sufficiently addressed the extent of services and the agencies' responsibilities and priorities for recovery efforts and that the contracts were updated as needed.

Recommendations—To help ensure its IT service contracts with other State agencies are effective in restoring agencies' operations in the event of a disaster, system or equipment failure, or other interruption, the Data Center should:

- Improve its policies and procedures for contracting IT services with other State agencies to ensure that the contracts are complete and up to date and address the extent of backup and recovery services and each agency's responsibilities and priorities for restoring operations. Policies and procedures should specify the systems and data, if any, agencies would need to provide the Data Center in the event recovery efforts are needed.
- Update its comprehensive list of agencies with which it contracts for IT services at least annually to ensure that the services provided, including any systems and data needed from each agency, are appropriately identified and agency systems are prioritized for recovery based on their relative importance. Information from this list should be included or summarized in the IT service contract, or contract revision if needs change, with each State agency.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-06.

2018-04

Department of Child Safety (DCS)—duplicate revenue transactions recorded

Condition and context—The Department of Child Safety (DCS) did not have adequate internal controls for recording and reconciling its intergovernmental revenues and receivables, and, therefore, did not detect and eliminate duplicate transactions recorded in the accounting system for fiscal years 2017 and 2018. During the year, the State's General Accounting Office discovered the errors and determined that intergovernmental revenues and receivables were overstated by \$55.8 million and \$137.2 million for fiscal years 2017 and 2018, respectively.

Criteria—DCS should establish and maintain effective internal control policies and procedures for recording and reconciling its intergovernmental revenues and receivables to help ensure that they are properly reported in the State's financial statements.

Effect—There is an increased risk that the State's financial statements could contain misstatements that are not prevented, or detected and corrected if DCS does not have adequate policies and procedures for recording and reconciling its intergovernmental revenues and receivables. The State's financial statements for the year ended June 30, 2018, reflect adjustments to correct these errors.

Cause—DCS has not determined how to prevent the duplicate transactions from occurring. Also, DCS did not eliminate duplicate revenue and receivable transactions that were automatically generated by the accounting system because it lacked enough employees to perform the reconciliations to identify which transactions should be eliminated.

Recommendations—DCS should either follow the State's policies and procedures for intergovernmental revenues or develop and implement its own written policies and procedures for recording and reconciling its intergovernmental revenues and receivables to prevent, or detect and correct, duplicate transactions. Policies and procedures should require a DCS employee to reconcile intergovernmental revenues and receivables recorded in the accounting system to detailed accounting records at least monthly and verify that any duplicate transactions are eliminated. Also, a second employee should review and approve the reconciliations.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

2018-05

Department of Revenue (DOR)—processing income tax revenues

Condition and context—The Department of Revenue (DOR) did not perform necessary reviews to ensure all of the State's income taxes were collected and reported in the State's financial statements.

Criteria—DOR is the State agency that has the sole responsibility for collecting and reporting all the State's income taxes and should have adequate procedures and systems in place to do so.

Effect—There is an increased risk that the State may not collect all income tax revenue that is due. Also, the State may not report accurate income tax revenue in its financial statements.

Cause—DOR's information system did not have the functionality to perform automatic system checks and reconciliations, and DOR did not perform manual compensating review procedures to help ensure all income taxes are collected and reported in the State's financial statements.

Recommendation—To help ensure DOR is collecting and reporting all the State's income taxes, it should address its system's limitations or immediately implement alternative procedures to ensure necessary reviews are completed.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-10.

2018-06

Department of Insurance (DOI)—reporting estimated liabilities associated with insolvent insurance carrier loss

Condition and context—The Department of Insurance (DOI) understated estimated liabilities associated with insolvent insurance carrier losses by \$113.1 million for the year ended June 30, 2017. During fiscal year

2017, DOI was notified that 2 affiliated insurance carriers were declared as insolvent and that the DOI's Life and Disability Insurance Guaranty Fund would be required to pay the estimated costs associated with the 2,990 outstanding policies held by Arizona residents. However, when DOI provided the insolvency information to the Arizona Department of Administration's General Accounting Office (GAO) for reporting the liabilities in the State's June 30, 2017, financial statements, it included only the current portion of the loss and not the estimated long-term portion. As a result of this omission, the State's other enterprise funds' beginning net position for fiscal year ended June 30, 2018, was adjusted and decreased by \$113.1 million to correct this error.

Criteria—U.S. generally accepted accounting principles (GAAP) require a liability to be recorded and disclosed for unpaid claims costs if it is probable that a loss has been incurred and the amount can be reasonably estimated.

Effect—The State's financial statements for the year ended June 30, 2018, reflect adjustments to correct the prior year's error. However, there is an increased risk that the State's financial statements could contain misstatements that are not prevented, or detected and corrected, if DOI does not provide all required information to GAO for the State's financial statements.

Cause—DOI did not include the full amount of estimated liabilities in the information provided to GAO in fiscal year 2017 because of staff oversight.

Recommendation—To help ensure the State's financial statements are presented in accordance with GAAP and are free from material misstatement, DOI should follow its established policies and procedures for providing information to GAO that is reported in the State's financial statements, including all necessary information for reporting estimated liabilities resulting from an insolvent insurance carrier loss.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

2018-07

Northern Arizona University (NAU)—Managing risk

Condition and context—Northern Arizona University's (NAU) process for managing its risks did not include an adequate University-wide information technology (IT) risk assessment to respond to University-wide IT risks, such as potential harm from unauthorized access, use, disclosure, disruption, modification, or destruction of IT data and systems. Also, it did not include inventorying sensitive information that might need stronger access and security controls and evaluating and determining the business functions and IT systems that would need to be restored quickly if NAU were impacted by disasters or other system interruptions.

Criteria—Effectively managing risk at NAU includes an entity-wide risk-assessment process that involves members of NAU's administration and IT management to determine the risks NAU faces as it seeks to achieve its objectives to not only report accurate financial information and protect its IT systems and data but to also carry out its overall mission and service objectives. The process should provide the basis for developing appropriate responses based on identified risk tolerances and specific potential risks to which NAU might be subjected. To help ensure NAU's objectives can be met, an annual risk assessment should include considering IT risks. For each identified risk, NAU should analyze the identified risk and develop a plan to respond within the context of NAU's defined objectives and risk tolerances. The process of managing risks should also address the risk of unauthorized access and use, modification, or loss of sensitive

information and the risk of losing the continuity of business operations in the event of a disaster or system interruption.

Effect—NAU’s operations and IT systems and data may be susceptible to unintended and unnecessary risk.

Cause—NAU relied on an informal process to manage IT risks. Also, although NAU had developed written data classification procedures and had begun the process of inventorying its sensitive data, an entity-wide inventory had not been completed as of fiscal year-end.

Recommendations—NAU should identify, analyze, and reduce risks to help prevent undesirable incidents and outcomes that could impact business functions and IT systems and data. It also should plan for where resources should be allocated and where critical controls should be implemented. To help ensure it has effective entity-wide policies and procedures to achieve these objectives, NAU should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. Responsible administrative officials and management over finance, IT, and other entity functions should be asked for input in NAU’s process for managing risk. NAU should conduct the following as part of its process for managing risk:

- Perform an annual University-wide IT risk-assessment process that includes evaluating risks such as risks of inappropriate access that would affect financial data, system changes that could adversely impact or disrupt system operations, and inadequate or outdated system security.
- Evaluate and manage the risks of holding sensitive information by inventorying the information NAU holds to assess where stronger access and security controls may be needed to protect data in accordance with State statutes and federal regulations.
- Evaluate and determine the business functions and IT systems that would need to be restored quickly given the potential impact disasters or other IT system interruptions could have on critical organizational functions, such as student services, and operations, such as payroll and accounting, and determine how to prioritize and plan for recovery.

NAU’s responsible officials’ views and planned corrective action are in its corrective action plan included in the Universities Responses section at the end of this report. This finding was also reported in NAU’s separately issued report on internal control and on compliance for the year ended June 30, 2018, as finding 2018-01.

This finding is similar to prior-year finding 2017-12. NAU addressed some of the prior-year reported deficiencies by implementing a portion of the recommendations, and those are not included in this finding.

2018-08

Northern Arizona University (NAU)—Information technology (IT) controls—access, configuration management, security, and contingency planning

Condition and context—Northern Arizona University’s (NAU) control procedures were not sufficiently designed, documented, and implemented to respond to risks associated with its IT systems and data. NAU lacked adequate procedures over the following:

- **Restricting access to its IT systems and data**—Procedures did not consistently help prevent or detect unauthorized or inappropriate access.

- **Configuring systems securely**—Procedures did not ensure IT systems were securely configured and configuration changes were adequately managed.
- **Securing systems and data**—IT security procedures lacked controls to prevent unauthorized or inappropriate access or use, manipulation, damage, or loss.
- **Updating a contingency plan**—Plan lacked key elements related to restoring operations in the event of a disaster or other system interruption.

Criteria—NAU should have effective internal controls to protect its IT systems and help ensure the integrity and accuracy of the data it maintains.

- **Logical access controls**— to ensure systems and data are accessed by users who have a need, access granted to systems and data is appropriate, and NAU monitors and reviews access to key systems and data.
- **Well-defined documented configuration management process**—Ensures NAU's IT systems are configured securely and that configuration changes are documented. This helps limit the possibility of an adverse impact on the system security or operations.
- **IT security internal control policies and procedures**—Help prevent, detect, and respond to instances of unauthorized or inappropriate access or use, manipulation, damage, or loss to its IT systems and data.
- **Comprehensive documented and tested contingency plan**—Provides the preparation necessary to place the plan in operation and helps to ensure business operations continue and systems and data can be recovered in the event of a disaster, system or equipment failure, or other interruption.

Effect—There is an increased risk that NAU may not adequately protect its IT systems and data, which could result in unauthorized or inappropriate access and the loss of confidentiality and integrity of systems and data. It also increases NAU's risk of not being able to effectively continue daily operations and completely and accurately recover vital IT systems and data in the event of a disaster or system interruption.

Cause—NAU had not revised its policies and procedures to ensure they adequately restricted access to its IT resources and relied on an informal configuration management process. Additionally, NAU made significant changes to its IT security policies and procedures and contingency plan but did not have time to fully implement these changes during the fiscal year.

Recommendations—To help ensure NAU has effective policies and procedures over its IT systems and data, NAU should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. To help achieve these control objectives, NAU should develop, document, and implement control procedures in each IT control area described below:

Access

- Review employee user access ensuring appropriateness and compatibility with job responsibilities.
- Evaluate the use and appropriateness of accounts shared by 2 or more users and manage the credentials for such accounts.
- Manage employee-owned and entity-owned electronic devices connecting to NAU's systems and data.

Configuration management

- Configure IT resources appropriately and securely, manage configuration changes, and maintain configuration settings.
- Manage software installed on employee computer workstations.

Security

- Perform proactive key user and system activity logging and log monitoring, particularly for users with administrative access privileges.
- Prepare and implement a security-incident-response plan making it clear how incidents should be reported and handled.
- Perform IT vulnerability scans and remediate vulnerabilities in accordance with a remediation plan.

Contingency planning

- Update a contingency plan and ensure it includes all required elements to restore critical operations, including being prepared to enable moving critical operations to a separate alternative site if necessary.
- Test the contingency plan.
- Train staff responsible for implementing the contingency plan.

NAU's responsible officials' views and planned corrective action are in its corrective action plan included in the Universities Responses section at the end of this report. This finding was also reported in NAU's separately issued report on internal control and on compliance for the year ended June 30, 2018, as finding 2018-02.

This finding includes portions of similar prior-year findings 2017-13 (access), 2017-14 (configuration management), 2017-15 (IT security), and 2017-16 (contingency planning). NAU addressed some of the prior-year reported deficiencies by implementing some of the recommendations, and those are not included in this finding.

2018-09

University of Arizona (UA)—Managing risk

Condition and context—The University of Arizona's (UA) process for managing its risks did not include an overall risk-assessment process that included identifying, analyzing, and responding to the University-wide information technology (IT) risks, such as potential harm from unauthorized access, use, disclosure, disruption, modification, or destruction of IT data and systems.

Criteria—Effectively managing risk at UA includes an entity-wide risk-assessment process that involves members of UA's administration and IT management to determine the risks UA faces as it seeks to achieve its objectives to not only report accurate financial information and protect its IT systems and data but to also carry out its overall mission and service objectives. The process should provide the basis for developing appropriate responses based on identified risk tolerances and specific potential risks to which UA might be subjected. To help ensure UA's objectives can be met, an annual risk assessment should include consideration of IT risks. For each identified risk, UA should analyze the risk and develop a plan to respond to the risk within the context of UA's defined objectives and risk tolerances.

Effect—UA's administration and IT management may put UA's operations and IT systems and data at unintended and unnecessary risk.

Cause—UA had not fully developed or implemented its new comprehensive risk assessment process.

Recommendations—UA should identify, analyze, and reduce risks to help prevent undesirable incidents and outcomes that could impact business functions and IT systems and data. It also should plan for where resources should be allocated and where critical controls should be implemented. To help ensure it has

effective entity-wide policies and procedures to achieve these objectives, UA should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. Also, UA should perform an annual entity-wide IT risk-assessment process that includes evaluating risks, such as risks of inappropriate access that would affect financial data, system changes that could adversely impact or disrupt system operations, and inadequate or outdated system security.

UA's responsible officials' views and planned corrective action are in its corrective action plan included in the Universities Responses section at the end of this report. This finding was also reported in UA's separately issued report on internal control and on compliance for the year ended June 30, 2018, as finding 2018-01.

This finding is similar to prior-year finding 2017-18.

2018-10

University of Arizona (UA)—Information technology (IT) controls—access, security, and contingency planning

Condition and context—The University of Arizona's (UA) IT control procedures were not always sufficiently designed, documented, and implemented to respond to risks associated with its IT systems and data. Further, UA did not clearly designate oversight and monitoring responsibilities to ensure that its business units followed University-wide IT policies and procedures. UA lacked adequate procedures over the following:

- **Restricting access to its IT systems and data**—Policies and procedures did not include logging and monitoring users with elevated access to UA's enterprise systems.
- **Securing systems and data**—IT security policies and procedures lacked controls to prevent unauthorized or inappropriate access or use, manipulation, damage, or loss. Further, procedures did not include identifying, classifying, and inventorying sensitive information that might need stronger access and security controls.
- **Developing and documenting a contingency plan**—UA lacked a plan for restoring operations in the event of a disaster or other system interruption. Further, UA did not identify the business functions and IT systems that would need to be restored quickly if UA were impacted by disasters or other system interruptions.

Criteria—UA should have effective internal controls to protect its IT systems and help ensure the integrity and accuracy of the data it maintains. Further, effective oversight and ongoing monitoring activities are crucial for UA to assess the effectiveness of its IT policies and procedures and take necessary remedial action.

- **Logical access controls**—Help to ensure systems and data are accessed by users who have a need, access granted to systems and data is appropriate, and UA monitors and reviews access to key systems and data.
- **IT security internal control policies and procedures**—Help prevent, detect, and respond to instances of unauthorized or inappropriate access or use, manipulation, damage, or loss to its IT systems and data.
- **Comprehensive documented and tested contingency plan**—Provides the preparation necessary to place the plan in operation and helps to ensure business operations continue and systems and data can be recovered in the event of a disaster, system or equipment failure, or other interruption.

Effect—There is an increased risk that UA may not adequately protect its IT systems and data, which could result in unauthorized or inappropriate access and the loss of confidentiality and integrity of systems and data. It also increases UA's risk of not being able to effectively continue daily operations and completely and accurately recover vital IT systems and data in the event of a disaster or system interruption.

Cause—UA had not completed its process of assigning oversight and monitoring responsibilities for decentralized IT internal controls. In addition, policies and procedures for access, data classification, and security were either still under development, awaiting approval, or not fully implemented. In addition, UA did not perform a business impact analysis because it had not completed its disaster recovery procedures to align with the movement of its enterprise systems into a cloud environment.

Recommendations—To help ensure UA has effective policies and procedures over its IT systems and data, UA should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. Further, UA should clearly designate oversight and perform ongoing monitoring activities to ensure its business units follow University-wide IT policies and procedures. To help achieve these objectives, UA should develop, document, and implement control procedures in each IT control area described below:

Access

- Monitor and review key activity of users with elevated access to its enterprise systems.

Security

- Improve IT vulnerability scans and remediate vulnerabilities in accordance with a remediation plan.
- Identify, evaluate, and apply patches in a timely manner.
- Develop, document, and follow a process for awarding IT vendor contracts.
- Implement existing policies for identifying, classifying, inventorying, and protecting sensitive information UA holds to assess where stronger access and security controls may be needed to protect data in accordance with State statutes and federal regulations.

Contingency planning

- Evaluate and determine the business functions and IT systems that would need to be restored quickly given the potential impact disasters or other IT system interruptions could have on critical organizational functions, such as student services, and operations, such as payroll and accounting, and determine how to prioritize and plan for recovery.
- Develop and implement a contingency plan and ensure it includes all required elements to restore critical operations.
- Test the contingency plan.
- Train staff responsible for implementing the contingency plan.
- Test backups of systems and data.

UA's responsible officials' views and planned corrective action are in its corrective action plan included in the Universities' Responses section at the end of this report. This finding was also reported in UA's separately issued report on internal control and on compliance for the year ended June 30, 2018, as finding 2018-02.

This finding is similar to prior-year findings 2017-17 (oversight), 2017-18 (risk assessment), 2017-19 (access), 2017-20 (security), and 2017-21 (contingency planning).

Federal award findings and questioned costs

2018-101

CFDA numbers and names:	Various
Award numbers and years:	Various
Federal agencies:	Various
Compliance requirement:	Allowable costs/cost principles
Questioned costs:	Unknown

Condition and context—The State did not comply with various federal programs' allowable costs/cost principles requirements with respect to the following legislatively mandated transfers that involved transferring monies from State funds that contained federal program monies:

- Laws 2016, Chapter 117, §113, and Laws 2017, Chapter 305, §19: mandated monies to be transferred from the State's Risk Management Revolving Fund to be spent on Department of Child Safety litigation expenses.
- Laws 2017, Chapter 305, §141: mandated monies to be transferred from various State funds to the State's Automation Projects Fund.
- Laws 2017, Chapter 305, §80: mandated monies to be transferred from the State's Risk Management Revolving Fund to the Department of Public Safety to be spent on general government services it normally provides.
- Laws 2018, Chapter 276, §12: mandated monies to be transferred from the State's Risk Management Revolving Fund to be spent on election litigation expenses.

When the State transferred and spent the monies to pay for the mandated uses, there was no basis to show the relative benefits for each specific federal program's objectives. The Arizona Department of Administration (ADOA) has evaluated the federal monies that were included in the transferred amounts and has worked with the applicable federal agencies to determine the questioned costs and whether monies need to be repaid.

Criteria—In accordance with 2 U.S. Code of Federal Regulations (CFR) §200.405(a), costs charged to federal programs should be based on the relative benefits received. Further, in accordance with 2 CFR §200.444(a), federal awards must not be used for the general costs of State government, such as police services, litigation, and information technology systems.

Effect—We were unable to determine the amount of questioned costs that resulted from this finding or identify all the federal programs affected because ADOA has not finalized the calculation for the federal portion of these transfers that occurred during fiscal year 2018. However, we estimated that questioned costs exceeded \$25,000. Once calculated, this amount will be subject to the U.S. Department of Health and Human Services' review and approval. This finding could potentially affect all federal programs administered by State agencies that had State legislatively mandated transfers.

Cause—During the legislative session when the State's Legislature determines and approves its mandated transfers through many and various bills that must be voted on and approved by the full House and Senate, it is not always possible for ADOA or other State agencies to intervene to recommend bill revisions to avoid transferring monies from sources with federal program monies.

Recommendation—To help ensure the State complies with federal programs' allowable costs/cost principles requirements, ADOA should:

- Continue to monitor bills being considered in the Arizona State Legislature to help ensure that unallowable costs to federal programs will not be incurred in the future.
- Continue to work with the U.S. Department of Health and Human Services for remittance of any unallowable costs identified.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

The finding is similar to prior-year finding 2017-101.

2018-102

CFDA number and name:	84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Award numbers and years:	H126A160002, 2016; H126A170002, 2017; and H126A180002, 2018
Federal agency:	U.S. Department of Education
Cluster name:	TANF Cluster
CFDA number and name:	93.558 Temporary Assistance for Needy Families
Award numbers and years:	1602AZTANF, 2016; 1702AZTANF and 1702AZTAN3, 2017; and 1802AZTANF and 1802AZTAN3, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Cash management
Questioned costs:	Not applicable

Condition and context—The Department of Economic Security's (DES) Financial Services Administration did not follow the agreed-upon Treasury-State Agreement (TSA) funding technique that requires the State to request monies to be received on Thursday of the week that payroll is paid. We audited 9 cash drawdowns that contained payroll costs and found that for 1 of 5 Rehabilitation Services Vocational Rehabilitation Grants to States cash drawdowns of \$516,336 and 3 of 4 Temporary Assistance for Needy Families cash drawdowns of \$3,051,142, \$8,329,412, and \$12,525,900, the federal monies were deposited a day early.

Criteria—In accordance with 31 CFR §§205.11 and 205.12(b), DES must request federal monies in accordance with the funding techniques agreed to in the TSA. In addition, in accordance with the TSA, Section 7.3, when applying funding techniques that require federal monies to be deposited in a State account on the average clearance day of payroll, the State shall request to receive the monies on Thursday of the week the payroll is paid. Also, DES must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303 and 45 CFR §75.303(a)).

Effect—DES' drawing of federal monies earlier than when needed increases the risk that federal monies may remain idle or that interest may be earned on them, which would be required to be remitted to the federal grantor. This finding could potentially affect all federal programs that DES administers covered by the TSA.

Cause—The State's average clearance day for payroll changed, but the TSA was not amended to meet DES' immediate cash needs.

Recommendation—To help ensure compliance with cash management compliance requirements, DES should work with Arizona Department of Administration’s General Accounting Office and the U.S. Department of the Treasury to revise its TSA to meet its cash needs.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-118.

2018-103

CFDA number and name:	84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Award numbers and years:	H126A160002, 2016; H126A170002, 2017; and H126A180002, 2018
Federal agency:	U.S. Department of Education
Compliance requirements:	Activities allowed or unallowed and allowable costs/cost principles
Questioned costs:	\$2,859

Condition and context—The Department of Economic Security’s (DES) Division of Employment and Rehabilitation Services, Rehabilitation Services Administration, did not retain adequate documentation in the recipients’ case records for 2 of 25 program expenditures tested. Specifically, for 1 expenditure tested, DES did not document in the recipients’ case records how monies spent for 3 months’ rent, utilities, gasoline, and moving costs, totaling \$2,699, assisted in an employment outcome. These questioned costs apply to the H126A170002 award. Further, DES did not document how it determined these costs were allowable since they occurred after the recipient had obtained full-time employment in a chosen field meeting the recipient’s employment objective. For another expenditure tested, DES advanced the recipient \$160 to purchase a textbook on the basis the recipient would reimburse DES upon receiving Pell Grant monies from registering and attending summer school. However, the recipient exited the program, and DES could not provide documentation that it received reimbursement. This questioned cost applies to the H126A180002 award.

Criteria—In accordance with 34 CFR §361.48(b), vocational rehabilitation services are any services described in an individualized plan for employment necessary to help an individual with a disability prepare for, secure, retain, or regain an employment outcome that is consistent with the individual’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. In addition, 34 CFR §361.46 requires each individualized plan for employment to include the specific rehabilitation services needed to achieve the employment outcome. Also, DES must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—Without strict adherence to adequate policies and procedures, vocational rehabilitation monies may be used to pay for unallowed services.

Cause—DES’ policies and procedures required the recipients’ individualized plans for employment to document the rehabilitation services needed but did not require documentation of how the specific rehabilitation services helped to achieve the employment outcomes. In addition, DES did not follow up with a recipient who exited the program to seek reimbursement for monies that were advanced for a textbook purchase.

Recommendation—To help ensure compliance with activities allowed or unallowed and allowable costs/cost principles compliance requirements, DES should improve its policies and procedures by requiring its employees to:

- Prepare and maintain documentation in all recipients' case records that explain how services will assist individuals with a disability in preparing for, securing, retaining, or regaining an employment outcome.
- Avoid advancing program monies to recipients for items, such as textbooks, that can be paid for using other federal sources.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-119.

2018-104

CFDA number and name:	84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Award numbers and years:	H126A160002, 2016; H126A170002, 2017; and H126A180002, 2018
Federal agency:	U.S. Department of Education
Compliance requirement:	Eligibility
Questioned costs:	Not applicable

Condition and context—For 2 of 40 applications tested, the Department of Economic Security's (DES) Division of Employment and Rehabilitation Services, Rehabilitation Services Administration, did not determine applicant eligibility within 60 days. Specifically, for 1 applicant, it took DES 89 days to determine eligibility, and it did not obtain an extension. For the other applicant, it took DES 102 days to obtain an extension.

Criteria—In accordance with 29 U.S. Code §722(a)(6), DES must determine whether an applicant is eligible for vocational rehabilitation services within 60 days after the applicant has submitted an application for the services unless DES and the applicant agree to an extension. Also, DES must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—Failure to make timely eligibility determinations may result in DES providing delayed services.

Cause—DES did not follow its policies and procedures and react to information system alerts that open applications were close to the 60-day eligibility determination requirement.

Recommendation—To help ensure eligibility determinations are made within 60 days after the applicant has submitted an application or the applicant has agreed to an extension, DES should provide adequate supervision of its case workers and enforce its policies and procedures to follow up on information system alerts that open applications are approaching the 60-day eligibility determination requirement. If the eligibility determination cannot be completed within the 60-day period, the applicant and DES should agree to an extension.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-120.

2018-105

CFDA number and name:	84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Award numbers and years:	H126A160002, 2016; H126A170002, 2017; and H126A180002, 2018
Federal agency:	U.S. Department of Education
Compliance requirement:	Special tests and provisions
Questioned costs:	Not applicable

Condition and context—The Department of Economic Security's (DES) Division of Employment and Rehabilitation Services, Rehabilitation Services Administration, did not develop an individualized plan for employment (IPE) within 90 days of the eligibility determination date or the agreed-upon extension date for 1 of 40 case files tested. Specifically, it took DES 112 days to complete the IPE. In addition, for another 1 of 40 case files tested, the IPE was completed; however, it was not signed by the eligible individual or the individual's representative.

Criteria—In accordance with 29 U.S. Code §722(b)(3)(F), DES must develop an IPE for an eligible individual as soon as possible, but no later than 90 days after the date of eligibility determination, unless DES and the eligible individual agree to extend that deadline to a specific date the IPE will be completed. In addition, 29 U.S. Code §722(b)(3)(C) requires an IPE to be approved and signed by both the eligible individual or individual's representative, and a qualified vocational rehabilitation (VR) counselor.

Effect—Failure to develop a timely IPE may result in DES providing delayed services.

Cause—DES' counselors did not follow established policies and procedures and respond to information system alerts that the deadline was approaching. In addition, DES counselors did not follow established policies and procedures to ensure the IPE was signed by either the eligible individual or the individual's representative.

Recommendation—To help ensure compliance with program requirements, DES should:

- Provide adequate supervision of its counselors and enforce its policies and procedures to follow up on information system alerts for completing IPEs no later than 90 days after the eligibility determination date or within the extension period or to prepare a letter before the end of the 90-day period to establish a specific extension of time when an IPE cannot be completed within 90 days. Both DES and the program participant should sign this letter.
- Ensure that IPEs are approved and signed by both the eligible individual, or the individual's representative, and a qualified VR counselor.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

2018-106

Cluster name:	TANF Cluster
CFDA number and name:	93.558 Temporary Assistance for Needy Families
Award numbers and years:	1602AZTANF, 2016; 1702AZTANF and 1702AZTAN3, 2017; and 1802AZTANF and 1802AZTAN3, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Eligibility
Questioned costs:	\$1,803

Condition and context—The Department of Economic Security’s (DES) Division of Benefits and Medical Eligibility, Family Assistance Administration, did not always have adequate policies and procedures in place to comply with eligibility requirements for 2 of 40 case records tested. Specifically, for 1 case record tested, DES did not reduce or halt the applicant’s benefit payments when the applicant did not comply with the Job Opportunities and Basic Skills (JOBS) training services working requirements. The applicant was issued a 100 percent noncompliance JOBS sanction notice; however, DES did not properly reduce the applicant’s benefits by \$440 for the following month. Additionally, for another 1 case record tested, DES provided cash assistance to an applicant without adequately supporting its decision regarding eligibility requirements. Specifically, DES could not provide required documentation supporting the applicant was a child’s legal caretaker. Because the case record did not adequately support eligibility determination facts, the applicant’s cash assistance payments totaling \$1,363 are questioned costs. These questioned costs apply to the 1802AZTANF award.

Criteria—In accordance with 42 U.S. Code §607(e), if an individual in a family receiving assistance refuses to engage in required work, DES must reduce assistance to the family, at least pro rata, with respect to any period during the month in which the individual so refuses. Also, as required by 45 CFR §206.10(a)(8), DES must document each decision regarding eligibility or ineligibility as supported by facts in the applicant’s or recipient’s case record. Also, DES must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303 and 45 CFR §75.303(a)).

Effect—DES may issue excess benefits to recipients and may provide benefits to applicants who are not eligible to receive them.

Cause—JOBS training services is administered by a subrecipient, and DES cannot reduce a participant’s benefits until JOBS issues a notice of adverse action on the participant’s account. JOBS failed to issue this notice by the 10th day of the month, DES’s deadline for processing the subsequent month’s benefit payments. In addition, DES’s case worker believed all supporting documentation was accounted for in the case file to support the recipient was the child’s legal caretaker.

Recommendation—To help ensure DES makes accurate benefit payments and complies with eligibility compliance requirements, it should work with the JOBS training services administrator to ensure that any notices of adverse action are issued on participants’ accounts by the 10th day of the month, as required by DES’ policies and procedures. In addition, DES should ensure that facts regarding eligibility determinations are properly supported and the support is retained in the recipients’ case records.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-123.

2018-107

CFDA number and name:	93.658 Foster Care Title IV-E
Award numbers and years:	1701AZFOST, 2017; 1801AZFOST, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Eligibility
Questioned costs:	Unknown

Condition and context—The Department of Child Safety (DCS) paid 7 child care institutions an estimated \$3,043,338 in federal monies for foster care maintenance payments when the institutions did not have all the required safety background checks to be considered eligible for the payments. Specifically, DCS did not always follow its policies and procedures to ensure that it completed background checks of its contracted and subcontracted child care institutions' employees within a reasonable period after their hire date. For 2 of the 13 child care institutions tested, DCS did not complete 16 of 312 employees' background checks until 2 to 98 months after the employees' hire date. In addition, we identified an additional 5 child care institutions that had outdated background checks for part of the year. DCS subsequently performed background checks on all child care institution employees between December 2017 and March 2018. However, there is increased risk that there may have been additional child care institutions that were not in compliance during the fiscal year.

Criteria—In accordance with 45 CFR §1356.30(f), for a child care institution such as a foster care group home to be eligible for Title IV-E funding, DCS must address safety considerations associated with employees who have direct contact with children. The State's safety consideration standards are outlined in A.R.S. §8-804(B)(3) and require DCS to complete a background check using the State's central registry for all employees of contracted and subcontracted child care institutions that provide direct services to children. The background check must be completed within a reasonable period after their hire date. Further, DCS must establish and maintain effective internal control over the federal award that provides reasonable assurance it is managing the federal award in compliance with all applicable laws, regulations, and the award terms (45 CFR §75.303).

Effect—Child care institutions may have employees who directly care for children, but who have not received required background checks or have not had them updated, and therefore DCS could make foster care maintenance payments to child care institutions that are not eligible to receive them.

Cause—DCS did not maintain documentation for long-term employees who were previously verified and did not enforce its existing policies and procedures to perform background checks of new hires at child care institutions within a reasonable period after their hire date.

Recommendation—To comply with federal regulations and State laws and to help ensure that foster care maintenance payments are not made to child care institutions that are ineligible to receive them, DCS should follow its existing policies and procedures to perform safety background checks for child care institutions in a timely manner. Specifically, DCS should ensure that child care institutions submit new hire information within 5 business days and DCS performs and completes background checks of the new hires at child care institutions within 2 weeks of receiving the documentation.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-114.

2018-108

CFDA number and name: 93.658 **Foster Care Title IV-E**
Award numbers and years: 1701AZFOST, 2017; 1801AZFOST, 2018

CFDA number and name: 93.659 **Adoption Assistance**
Award numbers and years: 1701AZADPT, 2017; 1801AZADPT, 2018
Federal agency: **U.S. Department of Health and Human Services**
Compliance requirement: Cash management
Questioned costs: None

Condition and context—The Department of Child Safety (DCS) did not have adequate internal controls to comply with the Treasury-State Agreement (TSA) and did not always request federal reimbursements according to the funding technique patterns as agreed to by both the State of Arizona and U.S. Department of Treasury for the audit period July 1, 2017 through June 30, 2018. Specifically, for 7 of 15 cash drawdowns we tested, DCS requested monies to pay its payroll costs between 1 and 13 days earlier than what was authorized for both the Foster Care Title IV-E and Adoption Assistance programs. In addition, included for 3 of these cash drawdowns, DCS drew down more monies than were required to meet its expected cash-management needs to pay vendors and service providers for the Adoption Assistance program. Further, for 3 of 15 cash drawdowns we tested, there was no evidence the reimbursement request was reviewed and approved for accuracy and compliance with the TSA prior to the request being made. Consequently, DCS maintained positive cash balances throughout the period of July 1, 2017 through June 30, 2018, that averaged \$1,621 to \$5,614,601 for the Adoption Assistance program. DCS maintained the largest balance of \$5,614,601 for 6 days. We did not identify significant cash balances for the Foster Care program.

Criteria—In accordance with 31 CFR §§205.11, 205.12(b) and 205.33(a), DCS must request federal monies in accordance with the funding techniques outlined in the TSA. DCS is required to use the biweekly estimation-allocation methodology for payroll payments and the average clearance methodology for payments to vendors and service providers to obtain reimbursement of federal expenditures. For example, when requesting monies for payroll, DCS should request monies to be deposited the same day it pays its employees. For payments to vendors and service providers, DCS should request monies for only the exact amount of disbursements to be paid in 2 days. Additionally, DCS must establish and maintain effective internal controls over the federal award that provides reasonable assurance it is managing the program in compliance with laws, regulations, and award terms (45 CFR §75.303).

Effect—DCS' drawing of federal monies earlier than when needed and as provided in the TSA increase the risk that federal monies may remain idle or that interest may be earned on them, which would be required to be remitted to the federal grantor. DCS remitted interest earned back to the federal government of \$1,004 and \$19,260 for the Foster Care Title IV-E and Adoption Assistance programs, respectively, because of these positive cash balances. This finding could potentially affect all federal programs DCS administers covered by the TSA.

Cause—DCS' policies and procedures for requesting federal reimbursement were not properly designed to comply with the TSA in effect for the audit period, which resulted in DCS not following the proper funding methodologies.

Recommendation—To help ensure compliance with the TSA, DCS should:

- Evaluate and modify as appropriate its policies and procedures for federal reimbursement requests to ensure that cash drawdown requests are calculated and made based on the approved funding

techniques. Also, future cash drawdown requests should be reduced for any positive cash balances to ensure monies requested are for the DCS' immediate cash needs.

- Require a person who is knowledgeable about the TSA's funding techniques to review and approve cash drawdown requests for accuracy and compliance with the TSA prior to submitting them to the federal agency. This review should include a comparison of the cash drawdown requests to the programs' cash balances.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-115.

2018-109

Cluster Name:	TANF Cluster
CFDA number and name:	93.558 Temporary Assistance for Needy Families
Award numbers and years:	1702AZTAN3, 2017; 1801AZTANF, 2018
CFDA number and name:	93.658 Foster Care Title IV-E
Award numbers and years:	1701AZFOST, 2017; 1801AZFOST, 2018
CFDA number and name:	93.659 Adoption Assistance
Award numbers and years:	1701AZADPT, 2017; 1801AZADPT, 2018
CFDA number and name:	93.667 Social Services Block Grant
Award numbers and years:	G1701AZSOSR, 2017; G1801AZSOSR, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Allowable costs/cost principles
Questioned costs:	None

Condition and context—The Department of Child Safety (DCS) did not have adequate internal controls over its allocation of indirect costs to federal programs. Specifically, DCS did not properly review and reconcile its monthly allocations to ensure that indirect costs were allocated correctly. As a result, for the period July 1, 2017 through April 30, 2018, DCS over-requested \$2,636,702 and \$1,860,578 in federal monies for the Foster Care Title IV-E and Social Services Block Grant (SSBG) programs, respectively, and under-requested \$3,858,427 in federal monies for the Temporary Assistance for Needy Families (TANF) program. Based on a prior-year audit finding, DCS modified its controls in May 2018, reexamined its cost-allocation reports, and corrected the errors to properly record the allocation of indirect costs by program in August 2018 but did not make up for the overdrawn monies by requesting less federal monies than needed on future reimbursement requests until September 2018.

Criteria—In accordance with 45 CFR §95.507, costs allocated to federal programs should be in accordance with DCS' approved cost-allocation plan. DCS uses the Arizona Random Moment Sampling (ARMS) and Title IV-E Population Factors cost-allocation processes to allocate indirect costs to its programs. Accordingly, expenditures processed through the ARMS cost-allocation method should be allocated based on the percentage of services employees provided when surveyed at a random moment in time. Costs allocated through the Title IV-E Population Factors method should be allocated based on the number of children served who are classified as Title IV-E or non-Title IV-E. Further, DCS must establish and maintain

effective internal controls over federal awards that provide reasonable assurance it is managing them in compliance with laws, regulations, and award terms (2 CFR §200.303).

Effect—DCS incorrectly allocated indirect costs to federal programs, and consequently, drew down excess federal monies totaling a net amount of \$638,853 for the audit period.

Cause—DCS did not have written policies and procedures in place to reconcile its indirect cost allocations on a monthly basis.

Recommendation—To help ensure compliance with federal requirements, DCS should develop and implement written policies and procedures for reviewing and reconciling indirect cost allocations on a monthly basis. This process should include recalculating the ARMS and Title IV-E Population Factor percentages used to allocate indirect costs.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-117.

2018-110

CFDA number and name:	93.917 HIV Care Formula Grants
Award numbers and years:	2 X07HA00080-27-00, 4 X07HA00080-27-01, and 6 X07HA00080-27-02, 2017; 5 X07HA00080-28-00, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Period of performance
Questioned costs:	\$90,935

Condition and context—The Department of Health Services (DHS) received rebates from pharmaceutical companies for medications purchased with program monies. However, DHS did not have adequate procedures in place to ensure that rebate monies it received were spent within the award period they were received. Specifically, for 13 of 60 expenditures tested, rebate monies expenditures totaling \$90,935 were incurred after the award period had ended. This questioned cost applies to the 6 X07HA00080-27-02 award.

Criteria—In accordance with the HIV/AIDS Bureau Policy Clarification Notice 15-04, rebate monies must be spent on allowable program costs within the award period to which the rebates relate. Also, DHS must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303 and 45 CFR §75.303(a)).

Effect—The \$90,935 of rebate monies expended were questioned program costs, and DHS risks having to repay these and any future similar questioned costs.

Cause—DHS' procedure was to apply rebate monies toward expenditures of the oldest award, if monies were available, and was not aware of the program's requirement.

Recommendation—To help ensure it complies with the program’s period of performance requirements, DHS should evaluate and revise its policies and procedures to ensure it is spending rebate monies received on allowable program costs within the award period to which the rebates relate.

2018-111

CFDA number and name: 93.917 **HIV Care Formula Grants**
Award numbers and years: 2 X07HA00080-27-00, 4 X07HA00080-27-01, and 6 X07HA00080-27-02, 2017; 5 X07HA00080-28-00, 2018
Federal agency: **U.S. Department of Health and Human Services**
Compliance requirement: Matching
Questioned costs: None

Condition and context—The Department of Health Services (DHS) did not have adequate internal control policies and procedures in place to monitor its compliance with matching requirements. DHS used pharmaceutical company rebates and State monies to satisfy its matching requirement. However, DHS based the rebate matching amount on rebate monies received rather than rebate monies expended. Additionally, DHS reported other nonrebate matching expenditures that were not incurred during the award period. Therefore, these expenditures were not allowable to be used to meet the matching requirements. We performed further auditing procedures and determined that DHS had sufficient allowable expenditures to meet its matching requirements from additional nonfederal sources. Therefore, no questioned costs were identified.

Criteria—In accordance with the grant agreement and 45 CFR §75.306, DHS was required to match at a ratio of 2 to 1 of the program’s total expenditures for the award period. Also, DHS must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303 and 45 CFR §75.303(a)).

Effect—There is an increased risk that DHS will report incorrect matching amounts to the federal grantor or will not comply with the matching requirements and be required to return federal monies to the federal awarding agency.

Cause—DHS was not aware that the expenditure amounts used for matching should occur within the award period. Further, for the rebate portion of the match, DHS felt that basing the amount on rebates received was appropriate because rebate monies were usually fully expended.

Recommendation—To help ensure that the program’s reported match is adequately supported and correctly reported, DHS should improve its policies and procedures to monitor its actual matching costs incurred throughout the award period by ensuring that they are allowable, comparable to the approved program budget, verifiable from DHS’ records, necessary and reasonable for accomplishing the program’s objectives, and not composed of costs related to other federal programs.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

2018-112

CFDA number and name:	93.917 HIV Care Formula Grants
Award numbers and years:	2 X07HA00080-27-00, 4 X07HA00080-27-01, and 6 X07HA00080-27-02, 2017; 5 X07HA00080-28-00, 2018
Federal agency:	U.S. Department of Health and Human Services
Compliance requirement:	Subrecipient monitoring
Questioned costs:	None

Condition and context—The Department of Health Services (DHS) did not evaluate its 16 subrecipients' risk of noncompliance to determine the appropriate monitoring procedures to be performed to ensure they were complying with program requirements. DHS' established policies and procedures were to perform the same level of monitoring on each subrecipient; however, for 2 of 16 subrecipients tested, DHS did not perform a site visit and did not ensure that the subrecipient received a single audit. However, DHS reviewed the 2 subrecipients' monthly reimbursement requests for allowability of costs incurred and found no unallowable costs. DHS disbursed over \$13 million to its 16 subrecipients during fiscal year 2018.

Criteria—In accordance with 2 CFR §200.331, DHS must evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the subaward's terms and conditions for purposes of determining the appropriate monitoring to perform to help ensure that the subaward is used for only authorized purposes and that the subaward's performance goals are achieved. Also, DHS must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303 and 45 CFR §75.303(a)).

Effect—Noncompliance with federal regulations requiring the evaluation and monitoring of subrecipients' activities and performance to help ensure subawards are used for only authorized purposes and meet performance goals. Without proper evaluation and monitoring policies and procedures in place, subrecipients could spend program monies on unauthorized purposes or fall below expected performance levels.

Cause—DHS was unaware that it was required to monitor the subrecipients because the 2 subrecipients also received direct funding from the same federal agency.

Recommendation—To comply with the federal regulations, DHS should:

- Modify its written policies and procedures to evaluate each subrecipient's risk of noncompliance and determine the appropriate monitoring to be performed rather than perform the same level of monitoring on every subrecipient for the program.
- Monitor subrecipients' activities, based on each subrecipient's risk of noncompliance evaluation, to help ensure that subawards are spent for only authorized purposes and that subrecipients comply with federal statutes, regulations, and the subawards' terms and conditions.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

2018-113

Cluster name:	Special Education Cluster (IDEA)
CFDA numbers and names:	84.027 Special Education—Grants to States 84.173 Special Education—Preschool Grants
Award numbers and years:	H027A150007, 2015; H027A16007, 2016; H027170007, 2017; H173A150003, 2015; H173A160003, 2016; H173A170003, 2017
Federal agency:	U.S. Department of Education
Compliance requirements:	Activities allowed or unallowed, allowable costs/cost principles, cash management, and reporting
Questioned costs:	None

Condition and context—The Arizona Department of Education (ADE) requested and received a total advance of \$785,226 during the fiscal year from this program’s available monies to temporarily cover another federal program’s costs. Spending federal monies on another program’s costs is not allowable. ADE did not receive reimbursement for the costs from the other federal program until 3 to 6 months after the initial expenditures and requests for monies occurred.

Criteria—In accordance with 2 CFR §200.405, ADE should charge costs to a federal award only if the cost is incurred specifically for the federal award. Further, according to 31 CFR §§205.11, 205.12(b)(4), 205.15(a), and 205.33(a), ADE must request federal monies from the federal awarding agency in accordance with the funding technique agreed to in the Treasury-State Agreement. The technique agreed upon for the program is a pre-issuance methodology where ADE should request monies not more than 3 business days before ADE makes a disbursement for program purposes. An interest liability may accrue if ADE receives federal monies prior to the day it pays out the funds for federal assistance program purposes. Also, ADE must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—ADE ultimately reimbursed the Cluster’s special education programs for monies spent on another federal program. However, using special education program monies for another federal program reduced the monies available for the Cluster’s special education programs’ use while monies were essentially loaned for an unallowable purpose. Accordingly, ADE may be responsible for repaying interest to the federal awarding agency for the monies advanced but not used for program purposes.

Cause— ADE did not have internal controls in place to ensure that only costs that were for the benefit of the special education programs were charged and that requests for monies from the federal awarding agency were used to pay only special education program costs.

Recommendation—To comply with the federal requirements and the Treasury-State Agreement, ADE should:

- Establish policies and procedures that ensure the special education programs are charged for only costs incurred specifically for the federal award.
- Request program monies for only allowable special education program purposes.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

The finding is similar to prior-year finding 2017-106.

2018-114

CFDA number and name:	10.558 Child and Adult Care Food Program
Award numbers and years:	7AZ300AZ3, 2016, 2017, 2018 7AZ300AZ4, 2016, 2017, 2018
Federal agency:	U.S. Department of Agriculture
Compliance requirement:	Eligibility
Questioned costs:	Unknown

Condition and context—The Arizona Department of Education (ADE) did not collect all the eligibility information required to demonstrate its 332 subrecipients were capable of operating the program in accordance with federal regulations. Specifically, for 319 subrecipients, which were child or adult day care centers, at-risk afterschool programs, and emergency shelters, ADE’s application form did not include a question for subrecipients to identify the source of nonprogram monies that could be used to pay for program costs that would be unallowable uses of federal monies. ADE disbursed over \$53 million to its 332 subrecipients during fiscal year 2018.

Criteria—In accordance with 7 CFR §226.6, ADE must establish application review procedures to determine the eligibility of subrecipients awarded program monies. Further, in accordance with 7 CFR §226.15-19, subrecipients must submit specific required eligibility information with their application to ADE demonstrating their capability to operate the program in accordance with federal regulations. Additionally, in accordance with 7 CFR §226.7(g), if a subrecipient intends to use nonprogram resources to meet program requirements, these monies must be accounted for in the subrecipient’s budget, and the subrecipient must identify the source of nonprogram monies that could be used to pay overclaims of federal awards or other unallowable costs.

Effect—ADE risks awarding federal monies to subrecipients who were ineligible to participate in the program. Because ADE’s records were incomplete, it was not practical to extend our auditing procedures sufficiently to identify all ineligible subrecipients and determine questioned costs, if any, that may have resulted from this finding.

Cause—ADE’s application form and review procedures did not contain enough detail to ensure that all eligibility requirements were met prior to awarding federal monies to its subrecipients.

Recommendation—ADE should revise its application form and reevaluate its existing policies and procedures for determining whether all eligibility requirements are met prior to awarding federal monies to its subrecipients.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

The finding is similar to prior-year finding 2017-110.

2018-115

CFDA number and name:	84.048 Career and Technical Education—Basic Grants to States
Award numbers and years:	V048A150003, 2015; V048A160003, 2016; V048A170003, 2017
Federal agency:	U.S. Department of Education
Compliance requirement:	Subrecipient monitoring
Questioned costs:	Unknown

Condition and context—The Arizona Department of Education (ADE) did not monitor its 10 postsecondary institution subrecipients to ensure they were using subawards for authorized purposes. Specifically, for 8 subrecipients, ADE did not evaluate each subrecipient's risk of noncompliance to determine the appropriate monitoring procedures to be performed and did not perform any monitoring of these subrecipients' activities. Further, for all 10 subrecipients, the ADE did not annually evaluate the performance of the subrecipients' career and technical education activities as required by federal regulations. ADE disbursed over \$3 million to its 10 postsecondary institution subrecipients during fiscal year 2018.

Criteria—In accordance with 2 CFR §200.331, ADE must evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the subaward's terms and conditions for purposes of determining the appropriate monitoring to perform to help ensure that the subaward is used for only authorized purposes and that the subaward's performance goals are achieved. Additionally, in accordance with section 123(b) of the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV), ADE must annually evaluate the career and technical education activities of each subrecipient using the local adjusted levels of performance as described in section 113(b)(4) of Perkins IV. Lastly, ADE must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—There is an increased risk that ADE's subrecipients could spend program monies on unauthorized purposes or fall below expected performance levels. Because ADE did not perform and document evaluation and monitoring procedures and results for its subrecipients, it was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding.

Cause—ADE did not have written policies and procedures in place to evaluate and monitor subrecipients as required by federal regulations to help ensure that subawards were being used for only authorized purposes and met performance goals.

Recommendation—To comply with the federal regulations, ADE should:

- Establish and implement written policies and procedures for evaluating each subrecipient's risk of noncompliance to determine the appropriate monitoring to be performed.
- Monitor subrecipients' activities, based on each subrecipient's risk of noncompliance evaluation, to help ensure that subawards are spent for only authorized purposes and that subrecipients comply with federal statutes, regulations, and the subawards' terms and conditions.
- Annually evaluate subrecipients using the local adjusted levels of performance described in Perkins IV to help ensure that subrecipients are meeting performance goals.

The State's responsible officials' views and planned corrective action are in its corrective action plan included at the end of this report.

2018-116

Cluster name:	Fish and Wildlife Cluster
CFDA number and name:	15.605 Sport Fish Restoration
Award numbers and years:	F13AF008941, 2013; F14AF01035, 2014
CFDA number and name:	15.611 Wildlife Restoration and Basic Hunter Education
Award numbers and years:	F13AF01047, 2013; F14AF01082, 2014
Federal agency:	U.S. Department of the Interior
Compliance requirements:	Activities allowed or unallowed and allowable costs/cost principles, cash management, matching, period of performance, procurement, reporting, subrecipient monitoring, and special tests and provisions
Questioned costs:	\$3,948,965

Condition and context—The Department of Game and Fish received an audit by the U.S. Fish and Wildlife Service (FWS) covering the grants it was awarded from July 1, 2013 through June 30, 2015. We became aware of this audit in March 2019. According to FWS' *Final Audit Report – U.S. Fish and Wildlife Service Wildlife and Sport Fish Restoration Program Grants (Report No. 2016-EXT-001)* dated August 2018, Game and Fish had the following deficiencies:

- Unallowable payroll charges totaling \$3,098,517 related to payroll for supervision of nonprogram projects, payroll based on predetermined work estimates, payroll for the incorrect grant period, and payroll for excessive employee leave.
- Improper charges of \$709,699 for services beyond the grant end dates.
- Insufficient tracking of subaward-related expenditures by 5 subrecipients, and FWS auditors could not determine whether the subrecipients used the federal monies totaling \$107,250 for appropriate purposes or obtained the best price for goods and services.
- Inadequate documentation of volunteer hours used as in-kind contributions totaling \$22,639.
- Inadequate procedures to comply with the State's procurement requirement to obtain written quotes from 3 different vendors for the purchase of goods totaling \$10,856.
- Inadequate documentation to support the reasons for writing off license revenues totaling \$21,276, indicating the license revenue may have been potentially diverted.
- Deficient procedures over subawards, as follows: 1) awarded funds to subrecipients for projects that were already completed, 2) did not perform required risk assessments for 2 subrecipients, 3) did not include all required information within the subaward agreements for the 2 subrecipients subject to the requirement, and 4) did not report 8 subawards totaling \$290,456 to the Federal Funding Accountability and Transparency Act Subaward Reporting System.
- Incomplete operational plan that did not contain all the elements required by the FWS for states that use a comprehensive management system (CMS) to administer their program grants.
- Improper draw down of \$23,425 in federal monies for awards to 2 subrecipients that did not expend the federal monies. Game and Fish reimbursed the FWS after this was brought to its attention.

Criteria—As specified within the FWS' Final Audit Report, Game and Fish should comply with various sections of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Effect—Federal monies could have been used on unallowed activities, granted to ineligible subrecipients, and reported incorrectly to the U.S. Department of the Interior.

Cause—Game and Fish did not have adequate policies and procedures in place, was not aware of all of requirements for the program, and did not ensure new employees were properly trained on the program requirements.

Recommendation—Game and Fish should work with FWS to ensure it adequately develops and implements the Final Audit Report’s recommendations. Further, Game and Fish should timely communicate all relevant matters to the Arizona Department of Administration and the Auditor General’s Office for consideration in the State’s single audit.

The State’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

State of Arizona

Notes to schedule of expenditures of federal awards

Year Ended June 30, 2018

Note 1 - Significant accounting policies

Basis of Presentation—The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Reporting Entity—The schedule includes all federal awards activity administered by the State of Arizona and its component units, except for the ASU Preparatory Academy, Inc.

Basis of Accounting—The federal awards reported in the schedule were presented in the State's governmental and business-type activities; governmental and proprietary funds; and discretely presented component units on the basic financial statements of the State of Arizona for the year ended June 30, 2018; and were accounted for using the modified accrual and full accrual basis of accounting, as applicable, in conformity with generally accepted accounting principles.

Expenditures—Certain transactions relating to expenditures of federal awards may appear in the records of more than one state grantee agency. To avoid duplication and the overstatement of the aggregate level of federal awards expended by the State of Arizona, the following policies have been adopted:

1. When monies are received by one state grantee agency and distributed to another state grantee agency, the federal monies are reported in the accounts of the state grantee agency that expends the monies.
2. Purchases of services between state grantee agencies using federal monies are recorded as expenditures on the purchasing agency's records and as revenues for services rendered on the providing agency's records. Therefore, the receipt of federal awards is attributed to the purchasing agency, which is the primary receiving/expending state grantee agency.

Indirect Costs—State agencies negotiate and manage their own indirect cost rates. State of Arizona agencies that use the 10 percent de minimis cost rate are the Arizona Cotton Research and Protection Council, the Arizona Criminal Justice Commission, the Commission for Postsecondary Education, the Arizona Department of Veteran's Services, and the Arizona Secretary of State.

Note 2 - Catalog of Federal Domestic Assistance (CFDA)/Identifying Number

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the *2018 Catalog of Federal Domestic Assistance*. When a CFDA number was unknown, the first two digits applicable to the federal agency, if known, were used; followed by the federal contract number. If the federal contract number was also unknown, the identifying number was composed of the first two digits applicable to the federal agency followed by the word "unknown". For programs within the Research and Development Cluster, the first two digits applicable to the federal agency followed by the letters "RD" were used.

Note 3 - Research and Development Cluster

As provided by Uniform Guidance, the research and development cluster of programs is summarized by federal agency subdivision or pass-through entity.

State of Arizona
Notes to schedule of expenditures of federal awards
Year Ended June 30, 2018

Note 4 - Loan programs

Student Loan Programs

The Universities administer the following seven federal student loan programs. The balances of loans outstanding at year-end are shown below:

Loan Program	CFDA Number	Loan Balances Outstanding at June 30, 2018
Education and Human Resources	47.076	\$ 357,021
ARRA—Trans-NSF Recovery Act Research Support	47.082	252,050
Federal Perkins Loan Program—Federal Capital Contributions	84.038	24,403,031
Nursing Faculty Loan Program (NFLP)	93.264	7,640,412
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	4,493,919
Nursing Student Loans	93.364	614,764
ARRA—Nurse Faculty Loan Program	93.408	198,720

Note 5 - Donation of Federal Surplus Personal Property

The value of the Donation of Federal Surplus Personal Property (CFDA number 39.003) program reported in the schedule is based on a “market basket formula” developed by the U.S. General Services Administration. This market basket formula represents 23.68 percent of the original federal acquisition cost, totaling \$127,568 for the year ended June 30, 2018.

Note 6 - Unemployment insurance (CFDA No. 17.225)

The unemployment compensation system is a unique federal-state partnership, founded upon federal law, but implemented through state law. As prescribed by the U.S. Department of Labor in consultation with the Office of Management and Budget, certain state monies, in addition to federal monies, were considered federal awards for determining Type A programs, and were included in the Schedule of Expenditures of Federal Awards.

The amount presented in the schedule consists of the following:

Regular unemployment compensation benefits	\$244,534,478
Federal Additional Compensation (FAC) Recoupment	(1,374,769)
Unemployment compensation for federal employees	2,409,918
Unemployment compensation for ex-service members	748,824
Administrative costs	<u>38,253,402</u>
Total expenditures	<u>\$284,571,853</u>

State of Arizona
Notes to schedule of expenditures of federal awards
Year Ended June 30, 2018

Note 7 - Contingent liabilities

Although the Schedule of Expenditures of Federal Awards is prepared to the best of our knowledge and belief, amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally the federal government. Any disallowed claims, including the amount already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor, if any, cannot be determined at this time.

STATE RESPONSE

Douglas A. Ducey
Governor

Elizabeth Thorson
Interim Director

ARIZONA DEPARTMENT OF ADMINISTRATION

GENERAL ACCOUNTING OFFICE

100 NORTH FIFTEENTH AVENUE · SUITE 302
PHOENIX, ARIZONA 85007

Phone: (602) 542-5601

March 28, 2019

Lindsey Perry
Auditor General
2910 N. 44th St., Ste. 410
Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying corrective action plan as required by the standards applicable to financial audits contained in Government Auditing Standards and by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, for each finding we are providing you with our responsible officials' views, the names of the contact people responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

D. Clark Partridge
State Comptroller

cc: Nicole Franjevic
Amanda Compton

State of Arizona
Corrective action plan
Year ended June 30, 2018

Financial statement findings

2018-01

Managing risk

Agency: Department of Administration

Name of contact person and title: Clark Partridge, State Comptroller

Anticipated completion date: Unknown

Agency's response: Concur

The State is actively working to correct all issues related to the access of its IT resources. State-wide risk-assessment processes will be expanded to include IT security. The State has developed policies and procedures and will be documenting additional processes. Each agency has developed a detailed corrective action plan to address this finding.

2018-02

Information technology (IT) controls—access, configuration management, security, and contingency planning

Agency: Department of Administration

Name of contact person and title: Clark Partridge, State Comptroller

Anticipated completion date: Unknown

Agency's response: Concur

The State is actively working to correct all issues related to the access of its IT resources. IT systems access is of the utmost importance to the State. Policy and procedures have been implemented or are being developed to address any gaps. Each agency has developed a detailed corrective action plan to address this finding.

2018-03

Department of Administration—Data Center's contracts with State agencies missing key elements

Agency: Department of Administration

Name of contact person and title: Ed Yeargain, Sr. Information Security Engineer

Anticipated completion date: October 1, 2018

Agency's response: Concur

ADOA-ASET will work to delineate responsibilities between ADOA and state agency responsibilities and then strengthen contracts.

State of Arizona
Corrective action plan
Year ended June 30, 2018

2018-04

Department of Child Safety—duplicate revenue transactions recorded

Agency: Department of Child Safety

Name of contact person and title: Ana Costache, DCS Finance Manager

Anticipated completion date: April 2019

Agency's response: Concur

In November 2018, the Department established a thorough and effective manual process for recording federal revenue. With the new process, all duplicate system automated revenue transactions are being discarded on a weekly basis.

The Department will create a desk procedure in an effort to better sustain this process by April 2019.

2018-05

Department of Revenue—processing income tax revenues

Agency: Department of Revenue

Name of contact person and title: Nicole Pope, Chief Internal Auditor

Anticipated completion date: June 30, 2020

Agency's response: Concur

The Department is in the planning phase of a project that will strengthen procedures for processing income tax revenues. The project is in the planning and requirements gathering stage. The project will be ran through the Department's governance process with an estimated completion date by the end of fiscal year 2020.

2018-06

Department of Insurance—reporting estimated liabilities associated with insolvent insurance carrier loss

Agency: Department of Insurance

Name of contact persons and titles: Michael Surguine, Executive Director, Guaranty Funds

Anticipated completion date: Completed September 20, 2018

Agency's response: Concur

Arizona Life and Disability Insurance Guaranty Fund will make certain that the best estimates of the total liabilities for each insolvent insurer are included in its future financial statements by following its established policies and procedures and by having a person not involved in the preparation of the financial statements review them prior to submission to the General Accounting Office.

See the Universities Responses section at the end of this report for the corrective action plans for findings 2018-07 through 2018-10.

Corrective action plan
Year ended June 30, 2018

Federal award findings and questioned costs

2018-101

CFDA numbers and program names: Various
Agency: Department of Administration
Name of contact person and title: Clark Partridge, State Comptroller
Anticipated completion date: Unknown
Agency's response: Concur

We have an established process in place for monitoring legislation. On multiple occasions, we have advised that these transfers were, in our opinion, not consistent with established Federal cost principles and would probably result in an obligation to the Federal government. Until the State changes its approach to the transfer of monies, there will likely continue to be disallowed costs which will require repayment with applicable interest.

This is a cross-cutting finding and is appropriately being addressed with the U.S. Department of Health and Human Services, Cost Allocation Services (DHHS-CAS) for the payment and appropriate resolution of the questioned costs. We agree and commit to continue to work with the DHHS-CAS and appropriate bodies within the State, to the best of our ability, to find an equitable resolution to this issue.

2018-102

CFDA number and program name: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Agency: Department of Economic Security
Name of contact person and title: Rebecca Clayton, Business and Finance Manager
Anticipated completion date: July 1, 2018
Agency's Response: Concur

In response to this finding, the Department met with the State General Accounting Office to discuss the Treasury State Agreement (TSA) and the unsustainable cash flow issue it created for the agency. The General Accounting Office submitted a new TSA agreement for fiscal year 2019 that meets the agency's cash flow needs, and the Department has modified its draw patterns in accordance.

2018-103

CFDA number and program name: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Agency: Department of Economic Security
Name of contact person and title: Kristen Mackey, RSA Administrator
Anticipated completion date: June 30, 2019
Agency's Response: Concur

The Department agrees with this finding and will implement the following:

- Distribute audit findings to staff and reiterate importance and requirements related to:
 - linking purchases with employment outcomes;
 - collecting and reconciling receipts for purchases;

State of Arizona

Corrective action plan

Year ended June 30, 2018

- Conduct quality assurance testing monthly. Auditors from the Quality Assurance and Integrity Administration will randomly select open and closed cases for audit each month and use a predefined rubric to evaluate compliance.
- Supervisors will review the Pass/Fail items with counselors. Coaching and mentoring discussions will take place to change behaviors. Disciplinary action will be pursued as appropriate if issues are not resolved after coaching and mentoring.

2018-104

CFDA number and program name: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Agency: Department of Economic Security
Name of contact person and title: Kristen Mackey, RSA Administrator
Anticipated completion date: June 30, 2019
Agency's Response: Concur

The Department agrees with this finding and will implement the following:

- Distribute audit findings to staff and reiterate the importance of and requirements related to completing the Eligibility determination within 60 calendar days from the date of application or to have a signed extension in place prior to the 60th calendar day;
- Release eligibility compliance report weekly to managers and supervisors;
- Develop and implement countermeasures to address cases noted as out of compliance;
- Conduct quality assurance testing monthly. Auditors from the Quality Assurance and Integrity Administration will randomly select open and closed cases for audit each month and use a predefined rubric to evaluate compliance; and
- Supervisors will review the Pass/Fail items with counselors. Coaching and mentoring discussions will take place to change behaviors. Disciplinary action will be pursued as appropriate if issues are not resolved after coaching and mentoring.

2018-105

CFDA number and program name: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Agency: Department of Economic Security
Name of contact person and title: Kristen Mackey, RSA Administrator
Anticipated completion date: June 30, 2019
Agency's Response: Concur

The Department agrees with this finding and will implement the following:

- Distribute audit findings to staff and reiterate the importance of and requirements related to completing the Individualized Plan for Employment (IPE) within 90 calendar days from the date of eligibility or to have a signed extension in place prior to the 90th calendar day;
- Release IPE compliance report weekly to managers and supervisors;
- Develop and implement countermeasures to address cases noted as out of compliance; and
- Conduct quality assurance testing monthly. Auditors from the Quality Assurance and Integrity Administration will randomly select open and closed cases for audit each month and use a predefined rubric to evaluate compliance.

State of Arizona

Corrective action plan

Year ended June 30, 2018

2018-106

TANF Cluster

CFDA number and program name: 93.558 Temporary Assistance for Needy Families

Agency: Department of Economic Security

Name of contact person and title: Tim Tucker, Deputy Workforce Administrator

Anticipated completion date: February 22, 2019

Agency's Response: Concur

The Department agrees with this finding and implemented the following:

- The Jobs Contract Provider re-trained all staff to ensure understanding of the sanction process, with emphasis on the Notice of Adverse Action (NOAA). The training focused on the NOAA being sent timely and giving the individual 10 days advance notice of TANF Cash Assistance being decreased or stopped (Jobs Program Policy, Section 800). The training also emphasized best practices to ensure NOAA's are sent accurately, timely, and that the sanction is imposed; and
- The Division of Benefits and Medical Eligibility coached the individual case worker on the programmatic requirements for all TANF eligibility decisions related to determining a child's relationship to the caretaker, which includes legal and blood relation; it was stressed that the case record must include documentation that supports this requirement. The individual case worker's Supervisor reviewed the TANF policy and procedures specific to mandatory relationship requirements and documentation standards, with staff during their team huddle and team meeting. Program Administrators reminded Regional Program Management of the requirement to verify and document the relationship of the adult applying for TANF benefits to each dependent child included in the budgetary unit and ask that they share this information with their regions during the next monthly meeting. This information was also shared with the Training Unit requesting they review their TANF training materials to ensure the verification and documentation requirements include the details required to support the TANF eligibility determinations.

2018-107

CFDA number and program name: 93.658 Foster Care Title IV-E

Agency: Department of Child Safety

Name of contact person and title: Thea Bish, OLR Program Administrator

Anticipated completion date: March 2018

Agency's Response: Concur

The Department of Child Safety (Department) will implement the following action items:

The Department implemented new internal control procedures and verified all group home employees had the proper background checks by March 2018. During the time of non-compliance, there were no children who were placed in the identified group homes who were in danger as a result of the delayed safety checks. As of March 2018, the finding was fully corrected, and new procedures include the following:

State of Arizona

Corrective action plan

Year ended June 30, 2018

In early 2018, the Office of Licensing and Regulation (OLR) implemented database (Quick Connect) enhancements to permit Child Welfare Providers to enter employees and volunteers into the Department's electronic database within 5 days of hire to request the Central Registry check and to document the fingerprint card request/card number. The Department's electronic database has the ability to interface with the Department of Public Safety on a daily basis. This enhancement enables OLR to receive notification of any denied, suspended, revoked, and expired Level I Fingerprint Clearance Cards for any staff or volunteers. The database issues a daily report to OLR with pending requests for Central Registry background checks. An OLR designee completes the safety checks and enters the results into the database within two weeks. The database auto generates electronic updates to the Child Welfare Agency requestor when the request is made, and the results are completed and entered by OLR.

In April 2018, all contracted Child Welfare Agencies were issued a contract amendment requiring each Agency to utilize two standard forms, Agency Roster and Background Check Authorization Form, to report all employees and volunteers on the first of each month to OLR and obtain authorization from the staff or volunteer to complete a background check. At implementation of the contract amendment, OLR began tracking the timeliness of Agency Roster Submissions. OLR identified timely submission by Child Welfare Agencies was not occurring. In September 2018, a process was developed to track and monitor each Child Welfare Agency without timely submissions. This process increased the timeliness of agency roster submissions.

In June 2018, a process was developed by the Department to notify Child Welfare Agencies when a Level I Fingerprint Clearance Card is denied, suspended, revoked or expired or a substantiated DCS finding is entered into the Central Registry. This notification serves as a courtesy notice to the Child Welfare Agency to follow up and does not disclose details of charge or reason.

On a quarterly basis, OLR staff review agency roster reports to ensure employees and volunteers identified on the rosters are entered in the Quick Connect database. In addition, OLR staff audit Child Welfare Agency's personnel files during on-site monitoring visits.

OLR will continue to monitor and evaluate the current process. Reviews occur quarterly to ensure continuous improvement. OLR is in the process of identifying a designee to complete monthly audits of the rosters to ensure consistency and thoroughness of the review process. OLR is developing a notification process for the Child Welfare Agencies when an invalid Level I Fingerprint Clearance Card status is identified. The Child Welfare Agency's response will include a formal plan to ensure child safety.

2018-108

CFDA numbers and program names: 93.658 Foster Care Title IV-E
93.659 Adoption Assistance

Agency: Department of Child Safety

Name of contact person and title: Ana Costache, DCS Finance Manager

Anticipated completion date: FY 2019

Agency's Response: Concur

The Department will implement the following action items:

During fiscal year 2019, the Department strengthened procedures and protocols for cash processing. The improvement in cash management is evident in the Department's performance for fiscal year 2018. Effective

State of Arizona

Corrective action plan

Year ended June 30, 2018

December 2018, the Department implemented and tested procedures to ensure cash is received to cover payroll costs only on the Wednesday of payroll week, per fiscal year 2019 Treasury State Agreement (TSA). The desktop procedures were also updated immediately to reflect this change.

The Department draws in a large portion of Adoption Assistance at the beginning of each month using an estimate for expenses scheduled to post during the monthly CHILDS' interface. Sometimes the estimate is too high and requires a return. However, when check cancellations and other adjustments are concurrent to the high estimate the \$1,000 minimum return requirement is typically not met. To assist in easily identifying instances in which a return did not meet the \$1,000 minimum, the Department has designed a tracking tool that is updated and monitored daily. The tool was implemented in June 2018.

The Department requires staff to perform the draw down process on a daily basis. On the top left corner of the Daily Draw Down Packet cover page, there is an automated formula that displays the current date. Upon review and approval, the manager is responsible for checking the date to ensure it is the current day. Therefore, it is implied that the signature date is the date shown on the cover page. The Department implemented this process in June 2018.

2018-109

TANF Cluster

CFDA number and program name: 93.558 Temporary Assistance for Needy Families

CFDA numbers and program names: 93.658 Foster Care Title IV-E

93.659 Adoption Assistance

93.667 Social Services Block Grant

Agency: Department of Child Safety

Name of contact person and title: Ana Costache, DCS Finance Manager

Anticipated completion date: November 2018

Agency's Response: Concur

The Department implemented the following action items:

After modifying controls to the Department's cost allocation process in May 2018 and correcting errors to its expenditures and revenues in August and September 2018, respectively, the Department went a step further in November 2018 and implemented a monthly post cost allocation process to monitor, review, and reconcile the ARMS and Population Factor percentages allocated to indirect costs. An analyst has been assigned this standard work task and the desktop procedure was updated in the same month.

2018-110

CFDA number and program name: 93.917 HIV Care Formula Grants

Agency: Department of Health Services

Name of contact person and title: Ricardo Fernandez, Ryan White Part B/ADAP Program Director

Anticipated completion date: April 30, 2019

Agency's Response: Concur

State of Arizona

Corrective action plan

Year ended June 30, 2018

The Ryan White Part B/ADAP Program is addressing the issue of spending pharmaceutical rebates outside of the period in which they were received by developing policies and procedures to govern our charging of rebate funds.

These pharmaceutical rebates policies will ensure the following:

- Rebate funds spent by the program will be spent only during the period of performance in which those funds were earned for expenses incurred during that period of performance.
- Compliance will be tested quarterly in AFIS to ensure that rebate funds earned in a period of performance are only utilized for expenses incurred during that period of performance.

This testing will add an additional level of review to help identify and correct errors prior to the closure of a period of performance. This will allow errors to be corrected promptly and will help us determine early on if our policies are effective rather than waiting until the end of the project period.

These policies will ensure our matching requirements through the HIV AIDS Care Formula Grant are fully complied with and ensure that we spend pharmaceutical rebates in the period which they were incurred.

These policies will be written in consultation with the Grants and Finance offices. They will be completed and implemented by April 30, 2019.

2018-111

CFDA number and program name: 93.917 HIV Care Formula Grants

Agency: Department of Health Services

Name of contact person and title: Ricardo Fernandez, Ryan White Part B/ADAP Program Director

Anticipated completion date: April 30, 2019

Agency's Response: Concur

The Ryan White Part B/ADAP Program is addressing the issue of not having in place proper internal controls and policies and procedures to review and monitor our matching requirement under the HIV AIDS Care Formula Grants requirements by developing policies and procedures to govern our monitoring of the state matching contribution.

These matching policies will ensure the following:

- Will utilize rebate moneys expended as part of the match contribution and will not utilize rebate funds received as match; and
- Will align the matching funds used as match with the award period of the Ryan White Part B/ADAP program.

These policies will ensure our matching requirements through the HIV AIDS Care Formula Grant are fully complied with.

These policies will be written in consultation with the Grants and Finance offices. They will be completed and implemented by April 30, 2019.

CFDA number and program name: 93.917 HIV Care Formula Grants

Agency: Department of Health Services

Name of contact person and title: Ricardo Fernandez, Ryan White Part B/ADAP Program Director

Anticipated completion date: April 30, 2019

Agency's Response: Concur

The Ryan White Part B/AIDS Drug Assistance Program had previously identified in the fall of 2018 that monitoring was required of all subrecipients, including those that had previously been exempted: the Maricopa Integrated Health System (MIHS) and Maricopa County Ryan White Part A program.

As such in fiscal year 2019 the Ryan White Part B/AIDS Drug Assistance Program has already begun monitoring that site visits are conducted of both the Maricopa Integrated Health System and Maricopa County Ryan White Part A program. ADHS will issue reports to both organizations on any findings identified and both subrecipients will submit quality improvement plans to address any issues identified. ADHS will then work with our jurisdictional planner, to implement any quality improvements identified as being needed.

We expect this monitoring process and quality improvements to be completed by April 30, 2019.

2018-113

Special Education Cluster (IDEA)

CFDA numbers and program names: 84.027 Special Education—Grants to States

84.173 Special Education—Preschool Grants

Agency: Department of Education

Name of contact persons and titles: Alissa Trollinger, ESS Deputy Associate Superintendent, and
Chris Brown, ESS Director of Operations

Anticipated completion date: May 2019

Agency's Response: Concur

The Arizona Department of Education (ADE) agrees with this finding and has worked to arrange an advance payment methodology to ensure that funds exist before expenditures are incurred for the Federal program. Exceptional Student Services (ESS) requests one month of expenditures in advance from the Governor's Office, ensuring there is enough funding to operate on. As of May 2019, this Federal project will no longer exist, however we will apply this methodology to other programs as applicable.

2018-114

CFDA number and program name: 10.558 Child and Adult Care Food Program

Agency: Department of Education

Name of contact person and title: Kenny Barnes, Co-Director, Community Nutrition

Anticipated completion date: July 2018

Agency's Response: Concur

The Arizona Department of Education (ADE) agrees with this finding and has implemented the recommendations. An online Management Plan and Budget was created that allows sponsors to indicate additional funding sources that could be used to pay for any program costs that may be unallowable with

federal monies. Due to the timing of the most recent audit for period ending June 30, 2017, this was a repeat finding. Community Nutrition trained sponsors on the online Management Plan and Budget in July 2018 and went live for fiscal year 2019 renewals and new applicants.

2018-115

CFDA number and program name: 84.048 Career and Technical Education—Basic Grants to States

Agency: Department of Education

Name of contact person and title: Cathie Raymond, State Director for CTE

Anticipated completion date: June 2019

Agency's Response: Concur

The Arizona Department of Education (ADE) agrees with this finding and will implement the recommendations. During the 2017-2018 school year, ADE-CTE worked on developing a postsecondary monitoring document to be utilized for local subrecipient monitoring visits. During the federal monitoring visit from the Office of Career, Technical & Adult Education (OCTAE) during March 2018, ADE-CTE had a chance to review the instrument with federal program staff to secure their feedback. Subsequently, changes were made to the postsecondary instrument based on their suggestions. Two monitoring visits were completed prior to the end of the school year at the Coconino Community College and the Mohave Community College. By the end of the 2018-2019 school year, the remaining eight community colleges will have received a monitoring visit and be provided technical assistance. Future monitoring visits will occur on a five-year rotation, with two community colleges being visited on an annual basis. Staff will also remain available to postsecondary subrecipients for needed technical assistance and to provide support for follow-up on the recent monitoring visits. In addition, the ADE-CTE will add the ten community college subrecipients to the pool of entities included on the "At-Risk Evaluation" completed on an annual basis. This evaluation includes an assessment of whether or not subrecipients are meeting the State Adjusted Levels of Performance (SALP) and whether or not they are in compliance with the federal Perkins requirements.

2018-116

Fish and Wildlife Cluster

CFDA numbers and program names: 15.605 Sport Fish Restoration

15.611 Wildlife Restoration and Basic Hunter Education

Agency: Arizona Game and Fish Department

Name of contact person and title: Kevin Hodgkins, CFO

Anticipated completion date: June 30, 2020

Agency's Response: Do Not Concur

The Department's Federal Aid Coordinator, Budget Control Staff, and other Department employees are working collaboratively with the Department of Interior's Office of Inspector General and U.S. Fish and Wildlife Service Wildlife and Sport Fish Restoration (WSFR) Policy Staff at their Headquarters and with WSFR's Region 2 office to initiate and draft a Corrective Action Plan (CAP). Department staff and WSFR staff met in person on March 7, 2019, to discuss a preliminary draft CAP. It is anticipated that the draft CAP will be finalized in late April or early May 2019.

Status of financial statement findings

2017-01, 2016-03, 2015-03, 2015-09

State agencies should improve their risk-assessment process to include information technology security
Status: Partially corrected

Due to the complexity of the finding, and the need to implement changes across multiple agencies, the State was unable to fully remediate the finding during the fiscal year. The State is working to develop, implement and publish policies and procedures to resolve gaps. Each agency has prepared detailed statuses for this finding.

2017-02, 2016-04, 2015-02, 2015-04, 2015-08

State agencies should improve access controls over their information technology resources
Status: Partially corrected

Due to the complexity of the finding, and the need to implement changes across multiple agencies, the State was unable to fully remediate the finding during the fiscal year. The State is working to develop, implement and publish policies and procedures to resolve gaps. Each agency has prepared detailed statuses for this finding.

2017-03, 2016-05, 2015-03, 2015-09

State agencies should improve their configuration management processes over their information technology resources
Status: Partially corrected

Due to the complexity of the finding, and the need to implement changes across multiple agencies, the State was unable to fully remediate the finding during the fiscal year. The State is working to develop, implement and publish policies and procedures to resolve gaps. Each agency has prepared detailed statuses for this finding.

2017-04, 2016-06, 2015-02, 2015-03, 2015-09

State agencies should improve security over their information technology resources
Status: Partially corrected

Due to the complexity of the finding, and the need to implement changes across multiple agencies, the State was unable to fully remediate the finding during the fiscal year. The State is working to develop, implement and publish policies and procedures to resolve gaps. Each agency has prepared detailed statuses for this finding.

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

2017-05, 2016-07, 2015-11

State agencies should improve their contingency planning procedures for their information technology resources

Status: Partially corrected

Due to the complexity of the finding, and the need to implement changes across multiple agencies, the State was unable to fully remediate the finding during the fiscal year. The State is working to develop, implement and publish policies and procedures to resolve gaps. Each agency has prepared detailed statuses for this finding.

2017-06, 2016-08, 2015-05

The Arizona Department of Administration's Data Center should strengthen its contracts with state agencies

Status: Not corrected

Due to staff turnover and the need to rework contracts across multiple agencies, Arizona Department of Administration-Arizona Strategic Enterprise Technology Office (ADOA-ASET) was unable to remediate the finding during the fiscal year. ADOA-ASET will work to delineate responsibilities between ADOA and state agency responsibilities as appropriate and then strengthen contracts.

2017-07, 2016-09

The Department of Administration's State Procurement Office should strengthen its policies and procedures over monitoring its contract with its ProcureAZ vendor

Status: Fully corrected

2017-08

The Department of Education should reconcile its internal information system to the State's general ledger accounting system

Status: Partially corrected

The fiscal year 2018 reconciliation began on May 1, 2018, with the final reconciliation of all payments on August 28th. The fiscal year 2019 state payments were reconciled on November 8, 2018. Work is under way to automate the reconciliation process for Basic State Aid (BSA), Additional State Aid (ASA), Classroom Site Fund (CSF), and Instructional Improvement Fund (IIF). Currently automation for BSA and ASA is complete, accounting for \$4.9 million of the \$5.6 million appropriated funds for fiscal year 2019. The automation for CSF and IIF is expected to be complete in the near future, accounting for an additional \$620 million of the appropriated funds. Reconciliation is currently occurring monthly.

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

2017-09, 2016-02

The Department of Insurance should improve its workers' compensation claim management process over insolvent insurance carriers

Status: Partially corrected

Reason for recurrence: It is prudent for any entity handling claims under insurance policies, at intervals determined by those charged with its governance, to undergo an independent review of its claims handling and obtain an expert opinion on whether its claims handling meets industry standards for accuracy and propriety. The Department of Insurance (Department) has not been able to identify a qualified vendor that is currently under contract with the State to perform such an audit. Also, the Department has not been able to issue a solicitation to identify and contract with a qualified vendor to perform a claims audit. The Department will continue its efforts to contract with a qualified vendor to perform a claims audit.

Actions taken:

- A new third-party administrator (TPA) began processing insolvent insurer workers' compensation claims for the Department.
- The Department reviews the claims being processed on a daily basis. Any questions are discussed with TPA.
- The TPA provides the Department a daily check register of claim payments made on its behalf. Department staff follow up utilizing access to TPA's system to validate propriety and accuracy of payments.
- A Department representative meets in person with the TPA every other week to discuss particularly difficult claims.

Remaining actions: The Department continues to seek an information technology solution that will allow for the data with respect to the substantial book of open insolvent insurer claims to be loaded on to the Department's claims system and updated on a regular basis.

2017-10, 2016-10, 2015-10

The Department of Revenue should continue to strengthen its procedures for processing income tax revenues

Status: Not corrected

Due to the complexity of the finding and lack of necessary resources, the Department was unable to remediate the finding during the fiscal year. The Department is in the planning phase of a project that will strengthen procedures for processing income tax revenues. The project is in the planning and requirements gathering stage. The project will be ran through the Department's governance process with an estimated completion date by the end of fiscal year 2020.

2017-22

Significant audit adjustment

Status: Fully corrected

Status of federal award findings and questioned costs

2017-101, 2016-103, 2015-103, 2014-102, 2013-103, 12-103, 11-103

CFDA numbers and names: Various

Agency: Department of Administration

Status: Not corrected

Reason for reoccurrence: We have an established process in place for monitoring legislation and have on multiple occasions, advised that these transfers were, in our opinion, not consistent with established Federal cost principles and would probably result in an obligation to the Federal government. However, if the State does transfer monies, there may continue to be disallowed costs that will require repayment with applicable interest.

Remaining actions: This is a cross-cutting finding and is appropriately being addressed with the U.S. Department of Health and Human Services, Cost Allocation Services (DHHS-CAS) for the payment and appropriate resolution of the questioned costs. We are committed to continue to work with the DHHS-CAS and appropriate bodies within the State, to the best of our ability, to find an equitable resolution to this issue. It should be noted that the number of fund transfers required by legislation have diminished significantly.

Agency: Department of Education
Status: Partially corrected

Reason for recurrence: In order for the finding to be resolved, there needed to be a 30-day advance payment. However, this was delayed when there were concerns that advancing funds may not be available under IDEA Part D. The Arizona Department of Education (ADE) had to consult with the U.S. Department of Education first before the cash advance system could be implemented.

Actions taken: The Deputy Associate Superintendent and Director of Operations of Exceptional Student Services have drafted policies and procedures to interact with the agency finance department to ensure that special education federal awards are only charged for costs specifically incurred for that program.

The policies and procedures for a 30-day advance payment were drafted, and a payment request was issued to the Governor's Office by ADE in June 2018.

Year ended June 30, 2018

Remaining actions: Finalize the policies and procedures.

2017-107

CFDA number and name: 84.011 Migrant Education—State Grant Program

Agency: Department of Education

Status: Partially corrected

Reason for recurrence: The Arizona Department of Education (ADE) needed to find a qualified contractor that would be able to properly develop an accurate funding formula. Once provided to ADE, it needed to be approved by the Office of Migrant Education, which took several months to review for final approval.

Actions taken: The Migrant Education Program has been utilizing the same funding formula since 2008. This formula does not adequately take into account the availability of funds from other federal, state, and local programs when determining subgrant amounts. ADE has contracted Afton to review the Migrant Education Program funding formula and to assist in making appropriate changes in policies and practices.

Afton has provided Migrant Education with a draft template for the fiscal year 2019 funding formula.

Remaining actions: Migrant Education has completed its analysis and is waiting for approval from the Office of Migrant Education to implement it.

Year ended June 30, 2018

2017-115, 2016-114

CFDA number and name: 93.659 Adoption Assistance

Agency: Department of Child Safety

Status: Partially corrected

The Department implemented some measures to ensure processes and procedures were accurate and met standards in fiscal year 2018.

The Department has taken the following actions:

- Reconciled the Department's sub-funds in October 2017.
- Created a daily query for cash balances to monitor cash per grant and to accompany request for draw prior to approval in December 2017.
- Cross trained new team members on cash management process in April 2018.
- Completed visual monitoring of fund balances in July 2017.
- Updated desk procedure on Federal cash draw process to reflect new Treasury State Agreement in June 2018.
- Updated federal cash draw process flow charts to reflect new Treasury State Agreement in June 2018.

Although controls were developed, they were insufficient to fully correct the finding. The Department will include:

- Strengthening procedures and protocols for cash processing.
- Ensuring staff perform the draw down process on a daily basis.

The finding will be fully corrected in fiscal year 2019.

2017-116

Status: Not corrected

The Department implemented the Corrective Action Plan in fiscal year 2019 that included the following actions:

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

- Developed a monthly reconciliation process for pool distribution in April 2018.
- Completed a monthly post cost allocation run assurance that pools are cleared to zero in October 2017.
- Created a desk procedure for cost allocation process in September 2018.
- Remitted allocated funds to the federal government in August 2018.

The finding will be fully corrected in fiscal year 2019.

2017-118

CFDA numbers and names: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
93.558 Temporary Assistance for Needy Families

Agency: Department of Economic Security

Status: Partially corrected

In response to this finding, the Department met with the State General Accounting Office to discuss the Treasury State Agreement (TSA) and the unsustainable cash flow issue it created for the agency. The General Accounting Office submitted a new TSA agreement for fiscal year 2019 that meets the agency's cash flow needs, and the Department will modify its draw patterns in accordance beginning in fiscal year 2019.

2017-119

CFDA number and name: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States

Agency: Department of Economic Security

Status: Partially corrected

Reason for finding's recurrence:

Additional system changes were made in July 2018. It is anticipated that these changes will have a positive impact during the next single audit review.

Actions taken to date:

- Any plan that exceeds \$10,000 requires a high cost justification narrative which details the anticipated outcomes and service needs as they relate to obtaining employment.
- Supervisors review and approve/disapprove the Individualized Plan for Employment (IPE).
- An escalation threshold has been developed to elevate approvals up through the management levels with every subsequent \$10,000 of added services.
- Supervisors are conducting random sample reviews for each counselor on a quarterly basis to ensure that services provided are allowable and contribute to employment outcomes.

Remaining planned action:

- Develop a method to report to leadership the results of sampling reviews.
- Implement a randomized case review process utilizing auditors from the Quality Assurance and Integrity Administration. Auditors will conduct monthly case reviews and provide a Pass/Fail report to Arizona Rehabilitation Services Administration (RSA) leadership.
- IPE workshops will be hosted by policy staff to provide additional guidance and clarification.

CFDA numbers and names: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
84.390 ARRA—Rehabilitation Services—Vocational Rehabilitation Grants to
States, Recovery Act

Agency: Department of Economic Security
Status: Partially corrected

Reason for finding's recurrence: Staff turnover has delayed the Department from implementing the recommendations.

Actions taken to date:

- Established a process by which management staff review eligibility compliance statistics on a weekly basis.
- Revised the procedure for weekly leadership huddle meetings to include a review of reports related to eligibility compliance with weekly metrics.
- Developed an eligibility compliance data tool to review eligibility compliance at both the statewide and regional levels.
- Provided mandatory Eligibility Compliance training to all supervisors and counselors. The training is followed by a mandatory Eligibility Compliance test with a requirement to pass the test with a 100 percent.
- Included a performance measure on the supervisor and counselor performance management tool to track compliance. Performance Improvement Plans will be implemented with supervisors and counselors who are not meeting the 60-day eligibility timeframe or have failed to execute a valid eligibility extension with the required client signature.
- Implemented required eligibility training for all newly hired managers, supervisors, and counselors to be followed by a mandatory post-test to check for understanding.
- Implemented Quarterly Training
- Implemented a requirement for staff not meeting compliance standards to retake the eligibility training course.
- Developed an eligibility compliance data tool to review eligibility compliance to report at the office, supervisor, and counselor level. Bi-weekly reports generated and sent to management for review.

Remaining planned action:

- Continue to monitor the compliance through weekly and monthly metric measurements to ensure compliance.
- Review quality assurance and performance reviews monthly and will provide staff training to specific personnel as necessary.
- The Department will re-evaluate compliance performance in June 2018 to determine if additional actions are needed to ensure compliance.
- Implement standard work management review of program performance reports monthly.

Agency: Department of Economic Security
Status: Fully corrected

2017-123

CFDA number and name: 93.558 Temporary Assistance for Needy Families
Agency: Department of Economic Security
Status: Partially corrected

Reasons for finding's recurrence: The Department was in the process of finalizing its policy notification. Further, additional training and coaching is needed.

Action taken to date: The Department issued a policy notification to all staff on April 23, 2018. This notification included a reminder of the programmatic requirements for all TANF eligibility decisions related to determining a child's relationship to the caretaker, which includes legal and blood relation. In the notification, it was also stressed that the case record must include documentation that supports this requirement. All Supervisors were required to review the policy notification with their staff by May 31, 2018. This additional information was also shared with the Training Unit, which reviewed its TANF training materials to ensure the documentation requirements include the details required to support the TANF eligibility determinations.

Remaining planned action: The Department will implement the following steps to address this finding:

- The Jobs Contract Provider will re-train all staff to ensure understanding of the sanction process, with emphasis on the Notice of Adverse Action (NOAA). The training will focus on the NOAA being sent timely and giving the individual 10 days advance notice of TANF Cash Assistance being decreased or stopped (Jobs Program Policy, Section 800). The training will also emphasize best practices to ensure NOAA's are sent accurately, timely, and that the sanction is imposed.
- The Division of Benefits and Medical Eligibility will coach the individual case worker on the programmatic requirements for all TANF eligibility decisions related to determining a child's relationship to the caretaker, which includes legal and blood relation; it will be stressed that the case record must include documentation that supports this requirement. The individual case worker's Supervisor will review the TANF policy and procedures specific to mandatory relationship requirements and documentation standards, with staff during their team huddle and team meeting. Program Administrators will remind Regional Program Management of the requirement to verify and document the relationship of the adult applying for TANF benefits to each dependent child included in the budgetary unit and ask they share this information with their regions during the next monthly meeting. This information will also be shared with the Training Unit requesting they review their TANF training materials to ensure the verification and documentation requirements include the details required to support the TANF eligibility determinations.

Status: Partially corrected

Reasons for finding's recurrence:

The Department is in the process of finalizing the ancillary assessment tool. Once complete, the Quality Assurance (QA) staff will receive a brief training on the assessment questions and implement the ancillary tool into their sample reads. The Workforce Administration will communicate audit changes to the Jobs Program Contractors prior to implementation.

Actions taken to date:

- Issued Policy Broadcast to the Jobs Program contractors to remind the Jobs Program contractors and interested parties of the sanction process outlined in the Jobs Program Policy Manual and Jobs Program User Guide.

Remaining planned action:

- Develop assessment questions for a standalone ancillary tool to elaborate on or focus on areas beyond the current contractual tool. The assessment questions will be developed and used to evaluate the Job Program contractors and the sanction process.
- Train the QA staff on the ancillary tool and a refresher overview of the policy and procedures related to noncompliance. QA staff will implement the ancillary tool into their sample reads.
- The Workforce Administration will communicate changes to the Jobs providers prior to implementation.

Year ended June 30, 2018

2017-126

CFDA number and name: 93.092 Affordable Care Act (ACA) Personal Responsibility Education Program
Agency: Department of Health Services
Status: Partially corrected

Reason for finding recurrence: The implementation of this new process crosses the entire agency and is an extensive and time-consuming task.

Actions taken:

- Developed a training program for all subrecipients and associated program staff defining “adequate documentation” required to support Contractor Expenditure Reports (CER’s).
- Hired an accountant to support a risk-based approach to review CER’s for compliance with adequate documentation requirements.
- Drafted an agency policy on subrecipient monitoring.

Remaining planned action: Continue implementation throughout the agency and finalize agency policy.

2016-107

CFDA numbers and names: 10.553 School Breakfast Program
10.555 National School Lunch Program
10.556 Special Milk Program for Children
10.559 Summer Food Service Program for Children

Agency: Department of Education
Status: Fully corrected

2016-110

CFDA number and name: 10.557 Special Supplemental Nutrition Program for Women, Infants and Children
Agency: Department of Health Services
Status: Not corrected

Reason for finding recurrence:

During fiscal year 2017, the agency laid the groundwork including developing standard work for a new process that would be implemented with the start of the Federal fiscal year 2018. The action included updating the subaward documents to be aligned with the requirements outlined in 2 CFR §200.331(a). Due to the turnover in procurement and key leadership positions, the action plan was not implemented.

Planned Actions:

- Develop policies and procedures that outline the requirements of 2 CFR §200.331(a)
- Distribute and train staff on policies and procedures
- Align subaward documents with the requirements of 2 CFR §200.331(a)

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

2016-111

CFDA number and name: 93.558 Temporary Assistance for Needy Families

Agency: Department of Child Safety

Status: Fully corrected

2016-118, 2015-108

CFDA number and name: 17.225 Unemployment Insurance

Agency: Department of Economic Security

Status: Partially corrected

Reasons for finding's recurrence:

ETA 227—The ETA 227 report is quite complex and requires an independent test of every identifiable scenario for each cell on the ETA 227 report.

ETA 227 EUC—Due to the similarities, the investigation into the ETA 227 EUC report will begin after the ETA 227 report errors are identified and corrected.

ETA 581—Although there have been changes, the conditions that caused the ETA 581 report to be inaccurate still exist.

Action taken to date:

ETA 227—

- Management staff now review all ETA 227 reports and supporting documents prior to submission to DOL.
- The Department developed procedures to clearly identify compilation of the quarterly ETA 227 report by support staff and an independent review and approval process by upper management.
- Assigned an analyst to research the ETA handbook to learn about the ETA 227 report, and begin the investigation to identify the causes for the report's inaccuracies.

The Department has identified two areas that are believed to be negatively impacting the ETA 227 report.

ETA 581—

- Two analysts completed on-the-job training to help mitigate errors.
- Hired a programmer to assist the developer staff.
- The systems and programming unit provided snapshots of the Population 4 data universe for the quarters in calendar year 2015. A review of the universe was completed in September 2017.

ETA 191—Fully corrected

TAPR—Fully corrected

Remaining planned action:

ETA 227—

- Fix the existing programming issues that prevent recovery amounts from applying toward penalty balances appropriately. The programming changes for this discrepancy are in process. Once complete, the Department will test, document, and migrate the changes.
- Identify a method of reporting changes on the ETA 227 report that are made using a series of data sets.
- Validation after implementation of programming changes that all discrepancies have been resolved.

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

ETA 227 EUC—The investigation for ETA 227 EUC report will begin once the ETA 227 report has been corrected.

ETA 581—

- Develop a workplan to accurately balance the receivables (Rated & Reimbursable) amounts
- Run an adhoc for six Collection reports, code system changes and complete user acceptance testing.
- Implement system changes into production.

Monitor in production to ensure the ETA 581 report inaccuracies have been resolved.

2016-119, 2015-109

CFDA number and name: 17.225 Unemployment Insurance

Agency: Department of Economic Security

Status: Fully corrected

2014-112

CFDA number and name: 84.010 Title I Grants to Local Educational Agencies

Agency: Department of Education

Status: Partially corrected

Reason for recurrence: The Arizona Department of Education (ADE) needed to have a full recalculation of all Title I-A allocations from fiscal years 2014-17, as well as needing to update the process for fiscal year 2018 and future years. This required time to find a qualified contractor that would be able to properly analyze and validate the calculations and processes. Once these were validated, it took the U.S. Department of Education several months to review everything for acceptance.

Actions taken: Because the execution of grant awards to subrecipients crosses multiple Single Audit periods, the ADE has further refined its process to include validating and documenting the posting of a subrecipients' Single Audit to the Federal Audit Clearinghouse prior to reimbursing them for any period for all awards.

ADE created new policies and procedures and updated the calculation template for the allocation process.

ADE procured Afton Partners, Inc., a third-party, independent fiscal consulting firm to analyze and validate the processes, policies and procedures used to recalculate these Title I allocations.

The fiscal year 2017-2019 allocation files have been reviewed and accepted by the U.S. Department of Education as complete and accurate.

Remaining actions: Execute Memorandum of Agreement with the U.S. Department of Education which will provide a schedule for when repayments will be made for past years to resolve miscalculations of Title I funds. All historically underfunded LEAs that are eligible to receive Title I-A funds in fiscal year 2019 and future years will be made whole over a period of 4 years.

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

2014-130

CFDA number and name: 97.042 Emergency Management Performance Grants
Agency: Department of Emergency and Military Affairs
Status: Partially corrected

Reason for recurrence: The process was changed to have a review done including all the appropriate checks, but only one person was a part of the review. The updated procedures include several people reviewing prior to payment being made.

Actions taken: A copy of the subrecipient's current audit status from the Federal Audit Clearing House is required to be attached to each draw down request.

Policies and procedures were updated to include additional reviews prior to payment being made.

Remaining actions: Observe results of implementation to ensure full resolution.

Agency: Department of Transportation
Status: Fully corrected

2016-124

CFDA number and name: 93.767 Children's Health Insurance Program
Agency: Arizona Health Care Cost Containment System (AHCCCS)
Status: Partially corrected

AHCCCS has partially corrected the matter. Below is a discussion of the items noted for 2017 and 2018, based upon follow-up, as well as the reasons for the finding's recurrence, the partial action taken by AHCCCS and the remaining planned action.

Using eligibility data, there were 48 identified individuals enrolled in the Kidscare eligibility category who were not transferred timely out of the Kidscare eligibility category in the month after the participant turned 19 in fiscal year 2017. Thus, we noted this finding was not corrected in fiscal 2017.

State of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

Using eligibility data, there were 9 identified individuals enrolled in the Kidscore eligibility category (out of 29,733 enrolled at June 1, 2018) who were not transferred timely out of the Kidscore eligibility category in the month after the participant turned 19 in fiscal year 2018.

The following describes actions taken by AHCCCS to address the finding. To ensure individuals who turn 19 are transitioned out of the Kidscore category timely, AHCCCS implemented two system enhancements to support the automatic transfer out of the Kidscore program and redetermination of eligibility in the month following the youth's 19th birthday. The initial enhancement implementing an automated age-out job was implemented at the end of 2014. A further enhancement was identified for scenarios when the age-out month and the renewal month coincide. A system change was implemented at the end of March 2016 that changed the order of the automated jobs and runs the age-out job before the renewal job to prevent a pending renewal from extending eligibility in the wrong category. To identify and correct records that were processed before this date or that failed to transition timely for any reason, an ad hoc report and manual reconciliation process was implemented in October 2016 to identify records with members in an age-limited category past the month they aged out. Once identified, the reported records are distributed to the appropriate staff at each agency to redetermine eligibility or make corrections to the date of birth as needed. Increasing the number of staff working the report will expedite the process and reduce backlogs. All corrective actions as identified were implemented with the applicable refunds reported on the CMS-21 during federal fiscal year 2017 for the 2016 finding and federal fiscal year 2018 for the 2017 issues.

For the 2018 issues noted above, AHCCCS has identified two system problems that contributed to the finding recurring and individuals not being transferring out of Kidscore timely: (1) when a member's age change occurred within the three months prior to annual renewal, the age change cancelled out the renewal; and (2) Premium Billing job reinstated some members after the age job was run. AHCCCS has begun drafting a System Request to make an enhancement to HEAplus to ensure that the Kidscore eligibility is given block coverage end date through their 19th birthday month and a determination is made for ongoing eligibility. While the System Request is being created and implemented, the contractor is running a query to find cases that fall into this scenario and they are being manually processed by the Eligibility System Support team of the Division of Member Services. On September 13, 2018, a System Request was implemented in the Premium Billing job to verify a member's age prior to reopening any cases, and there have been no issues discovered since this implementation took place. For the 2018 issues, AHCCCS will report the applicable refunds on the CMS-21 during federal fiscal year 2019.

Using the above noted eligibility data, it was also noted that in fiscal year 2018, 48 members were enrolled in the Kidscore program with an open eligibility determination that was not set to expire at the end of their eligibility period.

The system problems that contributed to the open eligibility determination issues in fiscal year 2018 are the same as those identified for members not transferring out of the Kidscore program timely noted above. Therefore, AHCCCS' remaining planned actions includes a System Request being implemented (an enhancement to HEAplus), a temporary manual process and a System Request implemented in the Premium Billing job to correct the late transfer-out issues are also applied to resolve the open eligibility end date issues. AHCCCS will report the applicable refunds related to the 2018 issues on the CMS-21 during federal fiscal year 2019.

Financial statement findings

2018-01

Managing Risk

Contact Persons:

Steve Burrell, Chief Information Officer

Michael Zimmer, Director of Information Security

Anticipated completion date: March 2019

Corrective Action Plan: NAU has developed and implemented a University-wide, Enterprise Risk Management process that includes evaluating risks associated with IT. This was adopted in Spring 2018 and continued throughout 2018, including a more specific IT Risk Assessment completed in September and October 2018. An Information Security Policy and related Information Technology Risk Assessment standard were published in the University Policy Library in July 2018. A University Risk Committee has met to review these items on a regular basis and will continue to do so. This Committee includes IT representatives to ensure that IT risks are considered and evaluated.

NAU completed the development and implementation of a Data Classification and Handling Policy and set of Data Handling Protocols. The policy and protocols were published February 13, 2018 and revised July 2, 2018. They are published in the University Policy Library. An initial phase 1 of a Data Inventory took place in June and July 2018 with survey results gathered to inform the phase 2 in-depth Data Inventory planned to occur in the first quarter of 2019.

2018-02

Information technology (IT) controls – access, configuration management, security, and contingency planning

Contact Persons:

Steve Burrell, Chief Information Officer

Michael Zimmer, Director of Information Security

Anticipated completion date: March 2019

Corrective Action Plan:

NAU has implemented multi-factor authentication for higher risk areas and for users where job responsibilities include handling or processing of sensitive data types. NAU is continuing to implement multi-factor authentication through Q1 and Q2 of 2019 by evaluating other moderate to high risk areas first. NAU is drafting new policies, standards, and procedures for Access Controls, which will include periodic review of user access to ensure appropriate access levels to job responsibilities and the use of shared accounts.

Northern Arizona University

Corrective action plan

Year ended June 30, 2018

NAU is currently revising, developing, and implementing configuration management policies and procedures that will include managing baseline configurations and changes made to those baselines, services and software, for servers and endpoints.

NAU has completed the development and implementation of an Information Security Policy and related Information Security Standards including an Auditing, Logging, and Monitoring Standard and a Vulnerability Management Standard. The policy and standards were published July 11, 2018 in the University Policy Library and include the recommendations provided.

NAU has completed the development and implementation of an Information Technology Incident Management policy and procedure. The policy and procedure were published in the University Policy Library October 18, 2018. Formal training and testing of the procedures are estimated to be implemented in Q1 2019 in alignment with the contingency plan listed below.

NAU is revising and updating its IT contingency plan which will include elements to restore critical operations, including IT operations, and preparation to enable the move of critical operations to an alternative location if necessary. The plan will involve training and frequent testing in 2019.

November 27, 2018

Lindsey A. Perry
Auditor General
2910 N. 44th St., Ste. 410
Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying corrective action plan as required by the standards applicable to financial audits contained in *Government Auditing Standards* and by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, for each finding we are providing you with our responsible officials' views, the names of the contact people responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

Nicole Salazar
Acting Vice President and Comptroller, Financial Services

Financial Statement Findings

2018-01

Managing risk

Summary Response: The University acknowledges that our IT risk assessment process needs additional work.

A thorough review of risk assessment needs for revising and expanding the current risk assessment process revealed that the use of professional services to complete risk assessments would exceed available budget and would require cost prohibitive annual re-assessments. As an alternative, a plan was developed to identify and provide professional training to risk managers, so they can complete the necessary assessments at a lower cost to the University.

To prepare for the first risk assessment cycle, the Information Security Office (ISO) acquired, installed, and configured software tools to enable inventory of resources and risk assessment. These tools provide central tracking and enable enforcement of completion. Training on properly completing and reporting on risk assessments will be conducted in November and December of 2018. Once risk assessments are completed, risk managers will be guided by the ISO to create security remediation plans guided by our risk-based approach. Revised policies governing enforcement were completed by June 30, 2018 and are pending University leadership final approval.

University Contact Personnel: Lanita Collette, Chief Information Security Officer, The University of Arizona (520) 621-9192

Anticipated Completion Date: Policy approval and first risk assessment cycle to be completed by June, 2019.

2018-02

Information technology (IT) controls—access, security, and contingency planning

Summary Response:

Oversight and monitoring

The University acknowledges that oversight of technical controls in our distributed computing environment needs improvement. To address this need, the Information Security Office will work with campus leadership to facilitate decentralized IT units' adherence to University IT policy. As part of this program, we are deploying monitoring tools on the UA network that can be leveraged by both central and distributed staff.

Security tools have been deployed to monitor internet and internal network traffic, block known malicious activity, and alert on suspicious activity. The University contracted with a vendor for security operation services to monitor alerts 24/7.

By June 30, 2018, the information security office had grown from two to ten staff members and staff began updating policies, including a policy to address enforcement of required security practices. These policies will be presented to campus leadership in December of 2018 for approval. Staff were also able to deploy a solution for tracking inventory in preparation for risk assessment training in November and December 2018.

All campus units are required to participate in the inventory, to be enforced by the Information Security Office (ISO) supported by departmental leadership, as directed by policy.

Several playbooks were developed and distributed to IT staff to aid in consistent and informed response to information security incidents. Additionally, a security Special Interest Group was formed that has membership from all major campus units. This group enhances information sharing about new solutions released by the ISO and ensures that campus units understand new requirements in proposed policies.

Restricting access to its IT systems and data

The University acknowledges a lack of logging and monitoring of elevated access to enterprise systems and will move forward to develop and implement effective logical access policies and procedures.

The University has produced a draft access control policy, purchased and installed a logging and monitoring solution and was in the process of testing and preparing to ingest log data. Processes and procedures for privileged access management are still under development and may require the acquisition of additional software or services.

Securing systems and data

The University acknowledges the need to improve our information security practices. The University continues to hire and train security staff to improve our capacity and ability to handle monitoring, detection, response, contingency-planning, and recovery/lessons learned. The University has 13 staff positions in place, with one more hire planned. This has greatly increased the ability of the Security Office to perform necessary tasks.

The University has installed and tested a vulnerability management tool. The University has also formed working groups to address revising IT policies and IT contracting issues. A new policy has been drafted in a number of areas including data classification and necessary contract provisions. Ongoing contract management is also included in the overall risk management and assessment guideline.

Developing and documenting a contingency plan

The University has revised and tested its backup procedures to align with the movement of enterprise web applications to cloud services. Procedures are documented and a draft policy has been created. Our cloud service provider has failover and recovery capabilities in the event of a disaster, system or equipment failure, or other interruption. We do use multi-availability zones for our enterprise systems. The University will move forward to address business impacts by identifying critical IT systems that will need to be restored quickly in the event of disruption.

As part of the cloud services functionality, snapshots are taken from production and they are staged in a different environment, validating their viability. Our provider has redundancy and failover built into their network and infrastructure, plus the University has the ability to build the environment from scratch if needed with these snapshots. Documenting of procedures is an on-going effort.

Staff education on the process has also been an on-going effort. Key personnel who are directly involved in the configuration have learned the process. Staff generally have been made aware that the process is now automated within our cloud service. In addition, as of October 2018 we have documented the steps and successfully completed a disaster recovery exercise around our Financial application.

University Contact Personnel: Lanita Collette, Chief Information Security Officer, The University of Arizona (520) 621-9192

Anticipated Completion Date:

Oversight and monitoring

This is an ongoing task; substantial work will be completed each year with the first inventory and assessment cycle completed by June 2019.

Restricting access to its IT systems and data

Policies and procedures will be completed and recommendations for the purchase or development of a privileged account management system will be in place by June 2019.

Securing systems and data

Revised policies including data classification, disaster recovery, vulnerability management, vendor contract language, and other matters were completed by June 30, 2018 and are pending University leadership final approval. Procedures and practice based on the new policies will follow; procedures will be documented by June 30, 2019.

Developing and documenting a contingency plan

Testing has been completed, revisions and additions to procedures to address business impact analysis will be completed by June 30, 2019.

March 1, 2019

Lindsey Perry
Auditor General
2910 N. 44th St., Ste. 410
Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying summary schedule of prior audit findings as required by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, we are reporting the status of audit findings included in the prior audit's schedule of findings and questioned costs.

Sincerely,

Wendy Swartz

Associate Vice President & Comptroller

Northern Arizona University
Summary schedule of prior audit findings
Year ended June 30, 2018

Status of financial statement findings

The University should improve its risk-assessment process over information technology security

Finding number: 2017-01 (2017-12 Statewide SA)

Status: Partially corrected

Reason for finding recurrence:

The majority of items in this finding are corrected. A second phase of Data Inventory was completed February 15, 2019 and the results need to be gathered and analyzed.

Actions taken:

NAU has developed and implemented a University-wide, Enterprise Risk Management process that includes evaluating risks associated with IT. This was adopted in Spring 2018 and continued throughout 2018, including a more specific IT Risk Assessment completed in September and October 2018. An Information Security Policy and related Information Technology Risk Assessment standard were published in the University Policy Library in July 2018. A University Risk Committee has met to review these items on a regular basis and will continue to do so. This Committee includes IT representatives to ensure that IT risks are considered and evaluated.

NAU completed the development and implementation of a Data Classification and Handling Policy and set of Data Handling Protocols. The policy and protocols were published February 13, 2018 and revised July 2, 2018. They will be further revised in March 2019. They are published in the University Policy Library.

An initial phase 1 of a Data Inventory took place in June and July 2018 with survey results gathered to inform the phase 2 in-depth Data Inventory. This phase 2 Data Inventory was completed February 15, 2019 – the data gathering and results need to be processed.

Remaining actions:

Phase 2 Data Inventory survey results need to be gathered and analyzed, organized, and inventoried. An evaluation of the impact of disasters will be conducted in the first half of calendar year 2019.

The University should improve access controls over its information technology resources

Finding number: 2017-02 (2017-13 Statewide SA)

Status: Partially corrected

Reason for finding recurrence:

NAU engaged with a consulting team to perform a current state, future state, and gap analysis to establish a roadmap for Identity and Access Management. That engagement concluded and work on this finding has continued.

Actions taken:

NAU has implemented multi-factor authentication for higher risk areas and for users where job responsibilities include handling or processing of sensitive data types. NAU is continuing to implement multi-factor authentication through Q1 and Q2 of 2019 by evaluating other moderate to high risk areas.

Northern Arizona University

Summary schedule of prior audit findings

Year ended June 30, 2018

NAU has final drafts of policies, standards, and procedures for Access Controls, which include periodic review of user access to ensure appropriate access levels to job responsibilities and the use of shared accounts. The completion and publishing of these policies will occur in Spring 2019.

NAU has a final draft standard for employee-owned electronic devices connecting to the network and is beginning the implementation of a network access control product as a technical control for this finding. Spring 2019 is the scheduled date for standard publishing and continued deployment of technology.

Remaining actions:

Publish the final policies, standards, and procedures for Access Controls and employee-owned electronic devices. Continue deployment and implementation of network access control for personally owned devices.

The University should improve its configuration management processes over its information technology resources

Finding number: 2017-03 (2017-14 Statewide SA)

Status: Partially corrected

Reason for finding recurrence:

The majority of items in this finding are corrected and the remaining items are in final draft stages.

Actions taken:

NAU has established a mature change management process with all of the elements in the finding addressed, including the review of proposed changes, documentation of changes, roll-back mechanisms for changes, testing of changes, and separating responsibilities for change management process. An Information Security Policy and associated Change Management Standard was published in July 2018.

NAU has final drafts of configuration management policies, standards, and guidelines going through the approval process with completion scheduled for Spring 2019. These will include managing baseline configurations, services, security, and software, for servers and endpoints.

Remaining actions:

Publish configuration management policies, standards, and guidelines.

The University should improve security over its information technology resources

Finding number: 2017-04 (2017-15 Statewide SA)

Status: Partially corrected

Reason for finding recurrence:

The majority of items in this finding are corrected. The remaining item of formally testing an incident plan is in planning stage.

Actions taken:

Northern Arizona University

Summary schedule of prior audit findings

Year ended June 30, 2018

NAU has completed the development and implementation of an Information Security Policy and related Information Security Standards including an Auditing, Logging, and Monitoring Standard, Vulnerability Management Standard, Patch Management Standard, and an Information Security Awareness Standard. The policy and standards were published July 11, 2018 in the University Policy Library and include all elements in the finding.

NAU has completed the development and implementation of an Information Technology Incident Management policy and procedure. The policy and procedure were published in the University Policy Library October 18, 2018.

Remaining actions:

Formal testing of the Incident Management procedures, such as performing of a table top exercise. This remaining action coincides with contingency planning exercises discussed below under finding 2017-05 and is likely to include the newly hired Emergency Manager.

The University should improve its contingency planning procedures for its information technology resources

Finding number: 2017-05 (2017-16 Statewide SA)

Status: Partially corrected

Reason for finding recurrence:

Some items in this finding were corrected. NAU Information Technology Services works in collaboration with the NAU Emergency Manager for disasters and contingency planning. The position of Emergency Manager at NAU was being filled through the Summer and Fall 2018. The position is now filled and progress will be made once again.

Actions taken:

NAU has published and implemented a Data Backup and Recovery Standard, Secure Data Center Standard, and an Incident Management Policy and Procedure. Testing of a new backup system has occurred. Measures have been taken to upgrade infrastructure to provide fail-over, redundancy, and recoverability. The formal testing of a disaster scenario remains.

Remaining actions:

Test the contingency plan and update the contingency plan based on the formal test.

Northern Arizona University
Summary schedule of prior audit findings
Year ended June 30, 2018

Status of federal award findings and questioned costs

Finding No.: 2017-113
Cluster Name: Student Financial Assistance Cluster
CFDA No. and Name: 84.007 Federal Supplemental Educational Opportunity Grants
84.033 Federal Work-Study Program
84.038 Federal Perkins Loan Program—Federal Capital Contributions
84.063 Federal Pell Grant Program
84.268 Federal Direct Student Loans
84.379 Teacher Education Assistance for College and Higher Education
Grants (TEACH Grants)
Federal Agency: U.S. Department of Education

CFDA No. and Name: 93.364 Nursing Student Loans
93.925 Scholarships for Health Professions Students from Disadvantaged
Backgrounds
Federal Agency: U.S. Department of Health and Human Services

Compliance Requirement: Special Tests and Provisions
Questioned Costs: N/A

Status: Partially Corrected

Reason for finding recurrence:

We continue researching a mechanism that could be used to better facilitate the monthly reconciliation.

Actions taken:

Internal control procedures have been developed and implemented. Monthly reports are reviewed by management and evidence of such review exists.

Remaining actions:

Continue to streamline our process of substantiating the details of the Ending Cash Balance. The underlying cause of that balance is that some disbursement records are accepted by COD after we make our final draw for the month, resulting in those amounts being reflected on the reconciliation report as the ending cash balance. We continue to work toward full resolution of the issues.

Lindsey Perry
Auditor General
2910 N. 44th St., Ste. 410
Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying summary schedule of prior audit findings as required by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, we are reporting the status of audit findings included in the prior audit's schedule of findings and questioned costs. This schedule also includes the status of audit findings reported in the prior audit's summary schedule of prior audit findings that were not corrected.

Sincerely,

Nicole Salazar
Acting Vice President and Comptroller, Financial Services

University of Arizona

Status of financial statement findings

The University should strengthen oversight of its information technology internal controls

Finding number: 2017-01 (2017-17 Statewide SA)

Status: Partially corrected

The University acknowledges that oversight of technical controls in our distributed computing environment needs improvement. To address this need, the Information Security Office will work with campus leadership to facilitate decentralized IT units' adherence to University IT policy. As part of this program, we are deploying monitoring tools on the UA network that can be leveraged by both central and distributed staff.

Security tools have been deployed to monitor internet and internal network traffic, block known malicious activity, and alert on suspicious activity. The University contracted with a vendor for security operation services to monitor alerts 24/7.

By June 30, 2018, the information security office had grown from two to ten staff members and staff began updating policies, including a policy to address enforcement of required security practices. These policies will be presented to campus leadership in December of 2018 for approval. Staff were also able to deploy a solution for tracking inventory in preparation for risk assessment training in November and December 2018.

All campus units are required to participate in the inventory, to be enforced by the Information Security Office (ISO) supported by departmental leadership, as directed by policy.

Several playbooks were developed and distributed to IT staff to aid in consistent and informed response to information security incidents. Additionally, a security Special Interest Group was formed that has membership from all major campus units. This group enhances information sharing about new solutions released by the ISO and ensures that campus units understand new requirements in proposed policies.

This is an ongoing task; substantial work will be completed each year with the first inventory and assessment cycle completed by June 2019.

The University should improve its risk-assessment process over information technology security

Finding number: 2017-02 (2017-18 Statewide SA)

Status: Partially corrected

A thorough review of risk assessment needs for revising and expanding the current risk assessment process revealed that the use of professional services to complete risk assessments would exceed available budget and would require cost prohibitive annual re-assessments. As an alternative, a plan was developed to identify and provide professional training to risk managers, so they can complete the necessary assessments at a lower cost to the University.

To prepare for the first risk assessment cycle, the Information Security Office (ISO) acquired, installed, and configured software tools to enable inventory of resources and risk assessment. These tools provide central tracking and enable enforcement of completion. Training on properly completing and reporting on risk assessments will be conducted in November and December of 2018. Once risk assessments are completed, risk

managers will be guided by the ISO to create security remediation plans guided by our risk-based approach. Revised policies governing enforcement were completed by June 30, 2018 and are pending University leadership final approval.

Revised policies including data classification, disaster recovery, vulnerability management, vendor contract language, and other matters were completed by June 30, 2018 and are pending University leadership final approval. Procedures and practice based on the new policies will follow; procedures will be documented by June 30, 2019.

The University should improve access controls over its information technology resources

Finding number: 2017-03 (2017-19 Statewide SA)

Status: Partially corrected

The University acknowledges a lack of logging and monitoring of elevated access to enterprise systems and will move forward to develop and implement effective logical access policies and procedures.

The University has produced a draft access control policy, purchased and installed a logging and monitoring solution and was in the process of testing and preparing to ingest log data. Processes and procedures for privileged access management are still under development and may require the acquisition of additional software or services.

Policies and procedures will be completed and recommendations for the purchase or development of a privileged account management system will be in place by June 2019.

The University should improve security over its information technology resources

Finding number: 2017-04 (2017-20 Statewide SA)

Status: Partially corrected

The University acknowledges the need to improve our information security practices. The University continues to hire and train security staff to improve our capacity and ability to handle monitoring, detection, response, contingency-planning, and recovery/lessons learned. As of June 30, 2018, the University had 10 staff positions in place, with more hires planned. This has greatly increased the ability of the Security Office to perform necessary tasks.

The University has installed and tested a vulnerability management tool. The University has also formed working groups to address revising IT policies and IT contracting issues. A new policy has been drafted in a number of areas including data classification and necessary contract provisions. Ongoing contract management is also included in the overall risk management and assessment guideline.

The University should improve its contingency planning procedures for its information technology resources

Finding number: 2017-05 (2017-21 Statewide SA)

Status: Partially corrected

University of Arizona

Summary schedule of prior audit findings

Year ended June 30, 2018

The University has revised and tested its backup procedures to align with the movement of enterprise web applications to cloud services. Procedures are documented and a draft policy has been created. Our cloud service provider has failover and recovery capabilities in the event of a disaster, system or equipment failure, or other interruption. We do use multi-availability zones for our enterprise systems. The University will move forward to address business impacts by identifying critical IT systems that will need to be restored quickly in the event of disruption.

As part of the cloud services functionality, snapshots are taken from production and they are staged in a different environment, validating their viability. Our provider has redundancy and failover built into their network and infrastructure, plus the University has the ability to build the environment from scratch if needed with these snapshots. Documenting of procedures is an on-going effort.

Staff education on the process has also been an on-going effort. Key personnel who are directly involved in the configuration have learned the process. Staff generally have been made aware that the process is now automated within our cloud service. In addition, as of October 2018 we have documented the steps and successfully completed a disaster recovery exercise around our Financial application.

Procedures to address business impact analysis will be completed by June 30, 2019.
